RODERICK LEWIS,  
Chief Election Officer.

And the House having met,

The Honourable the Lieutenant Governor, having entered the House, took her seat on the Throne.

Mr. Welch, the Government House Leader then said:

"I am commanded by the Honourable the Lieutenant Governor to state that she does not see fit to declare the causes of the summoning of the present Legislature of this Province until a Speaker of this House shall have been chosen according to law, but today at a subsequent hour Her Honour will declare the causes of the calling of this Legislature."

Her Honour was then pleased to retire.

And the Clerk having called for nominations for the office of Speaker, the Premier, Mr. Davis, addressing himself to the Clerk, proposed to the House for their Speaker Russell D. Rowe, Esquire, Member for the Electoral District of Northumberland, which motion was seconded by Mr. Lewis, and it was,

*Resolved*, That Russell D. Rowe, Esquire, do take the Chair of this House as Speaker.

The Clerk having declared the Honourable Russell D. Rowe duly elected, he was conducted by the Premier and Mr. Lewis to the Dais, where, standing on the upper step, he returned his humble acknowledgment to the House for the great honour they had been pleased to confer upon him by choosing him to be their Speaker.

And thereupon he sat down in the Chair and the Mace was laid upon the Table.

The House then adjourned during pleasure.

---

The Honourable the Lieutenant Governor then entered the House and took her seat on the Throne.

Mr. Speaker then addressed Her Honour to the following effect:

*May it please Your Honour,*

The Legislative Assembly have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.

The Government House Leader then said:

*Mr. Speaker,*

I am commanded by the Honourable the Lieutenant Governor to declare to you that she freely confides in the duty and attachment of the Assembly to Her Majesty's person and Government, and not doubting that the proceedings will be conducted with wisdom, temperance and prudence, she grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to Her Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from her the most favourable construction.

---

The Honourable the Lieutenant Governor was then pleased to open the Session with the following gracious speech:

*Mr. Speaker and Members of the Legislative Assembly of Ontario:*

I am pleased to welcome you to the opening of the First Session of the Thirtieth Parliament of Ontario, and especially so to those Honourable Members whose first term of office is now beginning.

In this brief session, my Government will deal primarily with the following critical issues: inflation, rents, mortgage interest rates and tenant security.

Our Province faces times which will require a demonstration of co-operation in placing the common good above other interests. The Government, in its concern over the economic health of the Province and the problems of inflation and unemployment, supports the decision of the Government of Canada to launch a nation-wide attack on these problems.

Notre province se trouve à une époque où la coopération sera indispensable et où il faudra placer le bien commun avant tout autre intérêt. Se préoccupant du bien-être économique de la province, ainsi que des problèmes de l'inflation et du chômage, l'Ontario appuie la décision du gouvernement du Canada, qui vient de prendre des mesures à l'échelle nationale pour lutter contre l'inflation.

The Government appeals to the people of Ontario to be resolute in this fight against inflation and to make the program work.

Ontario firmly believes that to be most effective, the program should be applied as uniformly as possible throughout Canada. The Government has therefore decided that the national program should apply directly to the public sector in Ontario in the same way as with other sectors in the economy.

Ontario has made representations to Ottawa to improve the anti-inflation program. These include the need for a firmer approach to price controls, tighter expenditure restraints by the Federal Government in its own operations, and a re-evaluation of the \$600 limit on pay increases at the lower end of the scale.

The Ontario Government has led the way during the past year in restraining its own expenditures and reducing the growth of its civil service. These measures will be continued in reinforcement of the national program.

Ontario's economy is making a good recovery after the setback experienced in the first part of this year. Unemployment, which rose to 7.3% in Canada this summer, reached a high in Ontario of 6.4% in June and has since fallen to 5.8%. So far this year, 102,000 new jobs have been created in this province.

You will be asked to proceed with amendments to The Development Corporations Act and The Municipal Act to establish an industrial parks program which will offer financial aid to municipalities to acquire and service facilities for this purpose.

The Province recognizes its responsibilities to senior citizens in a weaker economic position in our community, and will introduce a new Rent Supplement program retroactive to April 1st, 1975.

The Government intends to introduce a program retroactive to July 30, 1975, to protect tenants against unjustified rent increases. In addition, new legislation will be brought forward to provide security of tenure for residential tenants.

Several appeals have been made to the Federal Government to insulate residential mortgage rates from the direct influence of monetary policy decisions and so relieve the burden of increased mortgage interest rates on owner-occupied residences. In the absence of Federal action, Ontario is prepared to proceed on its own.

Legislation will be introduced to treat the assessment of condominiums in the same way as single family dwellings.

You will be asked to approve legislation to regulate retail sales activities on Sundays, as well as on certain public holidays. The proposed legislation seeks to reaffirm Sundays and holidays as days of restricted commercial activity, to protect workers, and in the interests of preserving and enhancing family life.

The Government is convinced that the acquisition of all firearms must be strictly controlled as a means of combatting increasing and tragic incidences of violence in our society. The Government has urged repeatedly that this can best be dealt with through amendments to the Criminal Code of Canada. The Federal Government now appears to agree with this position and has indicated that it will be taking early action on the national level along the lines which Ontario has proposed. In the event that there is any undue delay in this matter, the Ontario Government is prepared to introduce legislation to cover this province until such time as a national program is in place.

It is my Government's aim to provide the people of Ontario with assured energy supplies at competitive prices and with minimum harm to the environment.

Because of the very high capital costs of developing new energy production facilities, the Government has directed Ontario Hydro to pursue the possibility of increased interprovincial exchanges of electricity by the development of regional transmission grids, with the aim of providing electricity to Ontario at the lowest cost consistent with adequate systems security.

You will be asked to approve legislation for orderly allocation of natural gas supplies, in the event of possible shortages before additional supplies become available.

Above all, my Government urges the people of Ontario, whether as individuals or as corporate consumers, to co-operate in saving energy to help reduce overall consumption and waste of resources.

The measures outlined in this address and others that will be presented in the course of this session face up to the economic and social problems of Ontario, and offer a challenge to this Legislature to work responsibly in the interests of the people of our province.

My Government is aware that agreement on the serious nature of present problems does not necessarily mean a consensus on appropriate solutions. At the same time, the Government is confident of the capacity of this Assembly to do the job at hand, and to do it effectively.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

---

Her Honour was then pleased to retire.

## SECOND DAY

WEDNESDAY, OCTOBER 29TH, 1975

PRAYERS

2.00 O'CLOCK P.M.

Before the Question Period, Mr. Speaker addressed the House as follows:—

I know that those Members who were in the last Legislature will agree with me that the Question Period was getting out of hand, and I hope that the House will agree that stricter compliance with the Standing Orders is desirable.

Firstly, I point out that by Standing Order 27(d) oral questions must be confined to matters of urgency and of public importance. I suggest that the majority of the questions asked of recent years have not been urgent and, in many cases, could not be considered of public importance.

Clause (h) of the same Standing Order provides that no argument or opinion is to be offered nor any facts stated except so far as may be necessary to explain the question. It has become the practice to preface these oral questions with long preambles preceded by the words "in view of the fact that". In most cases the alleged facts were not facts at all but expressions of opinion. In either case they were out of order. A question should be a simple interrogative, starting with an interrogative word such as why, how, where, etc.

I must again remind the Members that the purpose of a question is to obtain information, not to give it.

I also direct the attention of the House to clause (f) which provides for supplementary questions "*arising out of the Minister's reply*". Many questions have been asked which, although perhaps related to the same subject matter, have not arisen out of the Minister's reply. Such questions should be asked as original questions when the Member gets the floor.

I would also point out that Ministers' answers in many cases have been much too long, even when given immediately. I ask the Ministers to keep their answers as brief as possible and direct their attention to the final phrases of clause (d) of Standing Order 27. I suggest that even if a Minister is able to reply immediately, if he feels that the question requires a very lengthy answer he should take it as notice and deliver his answer on a subsequent day as a statement under "*Statements by the Ministry*".

“The questions of coverage of proceedings in the House and its Committees is, as all Members are aware, one that has been raised in the House many times over the years. Except for one or two special exceptions the rule that has been followed is that no such coverage will be permitted until such time as the House itself may decide to change the practice. Specific mention should be made of the exceptions: Firstly, the ceremonial part of the Opening of a new Session has customarily been televised and broadcast, but even here it is to be noted that such coverage stops as soon as the Lieutenant Governor has left the Chamber and the House enters upon its own business. Secondly, on two or three occasions by unanimous agreement the presentation of the Budget has received such coverage.

Committees are emanations of the House and they are bound by the rules and precedents of the House itself. No Committee and certainly no Chairman of a Committee has authority to give permission for coverage which is not permitted in the House. However, the most important aspect of this incident is that the Commission on the Legislature has made a specific

recommendation to the House that coverage by the electronic media be permitted in the House itself and in all its Committees. The report containing this recommendation has been referred to a Select Committee for consideration and recommendation. It seems to me to be an affront to that Committee and to the House to anticipate what its recommendation in this area will be and to take the action that was taken before the Committee has had a chance to make its recommendation".

The Government House leader suggested that the House might give unanimous consent to the suggested procedure as an experiment and without establishing a precedent. Unanimous consent was not given.

After hearing the arguments of the mover and the representatives of the other parties Mr. Speaker ruled as follows:—

While there is no doubt that the subject of this motion may be considered of public importance to those concerned, I must point out that the Estimates of the Ministry of Health have very recently been considered by the Committee of Supply here in the Chamber so that there has been ample recent opportunity to discuss this subject. Moreover, I should also point out that as the Throne Debate has not yet been completed, there is this additional opportunity for bringing such matters to the attention of the House, at an early date.

Therefore I rule this motion to be out of order.

## EIGHTEENTH DAY

MONDAY, NOVEMBER 24TH, 1975

---

PRAYERS

2.00 O'CLOCK P.M.

Before the Question Period, Mr. Speaker addressed the House as follows:—

The Member for Ottawa East has twice raised the question of whether Parliamentary Assistants should be permitted to ask questions of the Ministry during the oral Question Period. I thank the Member for his question because of its importance. I must confess to a feeling of ambivalence in this matter as I can see good arguments on both sides. On the one hand is the fact that such Assistants are still Private Members, not members of the Cabinet, and are not privy to Cabinet discussions, and there is some merit in the suggestion that they should be allowed to seek information on matters of particular interest to their constituents as long as such questions are directed to Ministers other than those to whom they have been appointed Assistants. I think it is obvious that they should not direct questions to their own Ministers.

On the other side of the question it has been pointed out that they do swear the Oath of Secrecy; they assist in carrying out policy by sitting on Regulations Committees of Cabinet, they do pilot legislation on behalf of the Ministers whose Assistants they are; in at least one case, special permission was granted by the House for a Parliamentary Assistant to answer questions on behalf of his Minister during the latter's prolonged absence; and in at least some other jurisdictions such Assistants are prohibited from asking questions.

In view of the special status of these Members, and the fact that a committee of the House is at the present time considering the 4th and 5th Reports of the Commission on the Legislature, including the references in those reports to the Question Period, I am requesting that this whole matter of participation by Parliamentary Assistants in the Question Period be considered by that Committee, including the question of whether or not they should be permitted to answer questions on behalf of their Ministers either in the absence of such Ministers, or on reference by the Ministers.

I am sending a copy of this request to the Chairman of that Committee on the assumption that the House will agree that my request may be treated as a reference of this matter to the Committee.

I request that a report on this question may come from the committee very promptly.

---

On motion by Mr. Welch,

*Ordered*, That, Mr. Belanger be substituted for Mr. Morrow on the Select Committee to consider Bill 20.

PRAYERS

2.00 O'CLOCK P.M.

Mr. Morrow from the Select Committee on the Fourth and Fifth Reports of the Ontario Commission on the Legislature presented an interim Report as follows and moved its adoption.

*Interim Report of the Select Committee on the Fourth and Fifth Reports of the Ontario Commission on the Legislature:*

A Select Committee of this Legislature was assigned to study Reports Four and Five of the Ontario Commission on the Legislature, and to recommend on the advisability of implementing the recommendations of the reports, any part or parts thereof; and, if deemed advisable, the method and timing of implementation.

The Fifth Report contains recommendations on several matters of concern and importance to Members which could be dealt with immediately; the Committee has decided therefore to submit interim recommendations on media access to the Legislature, constituency offices for elected members and one procedural matter.

The Committee has held ten meetings to date and would like to acknowledge the co-operation of the following people who appeared before it: Douglas Fisher, Peter Brannan and members of Hansard staff, cameramen, Denis Massicote, David Allen and members of the press gallery, and Bernard Newman, M.P.P. John Holtby, First Clerk Assistant of the House, attended discussions on constituency offices in Quebec, British Columbia and the federal government.

### *Media Coverage*

The Fifth Report deals at length with media coverage of proceedings in the Legislature. As a result of meetings with members of the Hansard staff, the press gallery and the electronic media, the Committee is aware of the practical implications of the proposed changes, and feels that their implementation could be accomplished on an interim basis with relatively little inconvenience.

Radio feeds are available at once at little cost, and we are satisfied from test film taken in the Chamber on November 25th that film cameras can be given access to the Legislature at moderate cost to provide, with only minor changes in lighting, reasonable coverage of every Member. Since film is the major medium now used for television news coverage, this would be a satisfactory interim solution.

The Committee will report on the broader questions of the introduction of television cameras, restructuring and refurbishing of the Assembly in its final report.

*Recommendation: The Committee recommends that this Legislature give access to press gallery members for radio, film and still photograph coverage of the Legislature and its committees, in time for the next session, provided that a committee composed of the Speaker, representatives of all three parties and of the press gallery can reach a satisfactory agreement on the details of such access.*

### *Constituency Offices*

The Commissioners recommend in the Fifth Report that each elected member of the Legislature be entitled to a constituency office at public expense. The Committee asked each Member of this House for comments on this proposal and of 125 members, 97 indicated they are in favour of such publicly funded constituency offices, 3 are against and 4 made other suggestions. Eighty-six indicated such funding should commence immediately or on January 1st, 1976 and 11 suggested a later date.

The Committee concurs in the recommendation of the Commissioners:

that each elected Member of the Legislature be entitled to a constituency office and to the services of one employee, each at the expense of the public treasury. The costs of premises will vary significantly, but the treasury should be prepared to pay for reasonable space at going rates in the particular constituency. Additionally, salary for office help should be commensurate with salaries paid to the employees of the Members in their legislative offices.

Terms of leases and salaries for those employed should be negotiated by the individual Member and be approved by the Speaker who should also, in our judgment, recommend sensible guidelines and expenditure ceilings.

All expenses for the maintenance of such offices should be submitted to the Office of the Assembly for payment and should be published annually in the official Hansard.

The Committee feels that expenses for such offices should be paid directly by the Speaker and not through the Member. Should a Member desire more than one employee, he should be able to make alternative arrangements with the Speaker, provided that the total remuneration does not exceed the equivalent for one full-time employee.

No salary shall be paid to a Member's spouse or immediate family.

No rent shall be paid for a constituency office located in the home or business office of a Member or his immediate family, or in political party premises.

Within guidelines set by the Speaker, allowable expenses should include maintenance, office supplies, telephone service and furnishings in accordance with Queen's Park offices.

Where a Member requires a mobile office or more than one office because of the geographical size of his riding, he may make alternative arrangements with the Speaker, provided that the total cost does not exceed that which would be paid other Members.

The Committee strongly suggests the provision for constituency offices be effective January 1, 1976.

*Recommendation: The Committee recommends that the Board of Internal Economy give immediate and urgent consideration to the recommendations of the Commissioners respecting constituency offices.*

*Introduction of Visitors to the Legislature:*

*Recommendation: The Committee recommends, in keeping with the recommendation on page 74 of the Fourth Report, that no announcements of visitors in the galleries in the Legislature be made with the exception of Heads of State, their representatives or distinguished parliamentary guests, as Mr. Speaker may decide, and such introductions should be made by Mr. Speaker.*

On motion by Mr. Welch.

*Ordered,* That the debate be adjourned.

On motion by Mr. Welch,

*Ordered,* That, the Report for the Workmen's Compensation Board for the year ending December 31st, 1974, be referred to the Standing Estimates Committee for consideration on December 5th and December 8th concurrently with the House. Such consideration to be recorded by Hansard and transcribed for Members of the Committee only.

The following Bill was introduced and read the first time:—

Bill 40, An Act to amend The Municipality of Metropolitan Toronto Act.  
*Mr. Grossman.*

Before the Orders of the Day, Mr. Swart moved, seconded by Mr. Foulds,

That the regular business of the House be set aside to discuss a matter of urgent public importance under Standing Order 30, namely, the now critical economic and social hardship being experienced by eleven thousand workers directly involved in the labour dispute in the pulp and paper industry, by the many thousands of workers in related woods and other industries and by the many communities directly involved.

2.00 O'CLOCK P.M.

The following Sessional Paper was tabled:—

Public Accounts of Ontario, 1974-75, Volume 1—Financial Statements (No. 2).

---

Mr. Williams from the Select Committee appointed to consider Bills 20 and 26 presented the Committee's Report which was read as follows and adopted:—

Your Committee recommends that for the purpose of clause by clause consideration of the Bills referred to it, the said Bills be reported back to the House for such consideration in Committee of the Whole House.

---

On motion by Mr. Welch,

*Ordered*, That, the House will resume sitting in the Chamber on Wednesday of this week.

---

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Last week several Members raised a number of matters for my consideration.

First, the Member for Wilson Heights raised the question of participation in committee proceedings by Members of the House who are not members of the committee. To deal first with Standing Committees, perhaps it should be mentioned that in some other jurisdictions, the United Kingdom for example, such participation is not permitted except for two specific instances. In Ontario, however, it has been the practice to permit such participation, but it must be realized that this is with the approval of the committee, either expressed or understood. Such participation has been permitted so regularly that it has come to be regarded as a right, but I must repeat that the committee has the right to withhold its permission and this has, in fact, been done, although not for some years. Procedure in Select Committees has been different. Members of the House who are not members of the Select Committee have spoken to committee only on invitation or when presenting briefs to the committee. They have not participated in the committee's discussions nor in the examination of witnesses appearing before the committee.

Secondly, the Member for York South asked if it was not a proper point of order for a Member to rise instantly to correct a misstatement by another Member. While this is frequently done in the House it is not in fact a valid point of order. It must be pointed out once again, that a point of order relates to something that has occurred which is contrary to the Standing Orders of the House or the Precedents of Parliament. When one Member disagrees with another, he may express that disagreement at the earliest opportunity, but in point of fact it does not constitute a point of order. On the contrary, when a Member has expressly denied that he has made a certain statement, as was the case in question last Thursday, his statement must be accepted and it is out of order to allege that he is not telling the truth. I refer the House specifically to Standing Order 16 (a), clause 10.

The Leader of the Opposition suggested that when points of order are raised during the Question Period, the time taken to deal with such points should be added to the Question Period. I direct his attention to Standing Order 27 (b) which specifically provides that the Question Period "Will last not more than 45 minutes including Supplementary questions and points of order".

The answer was Tabled to question No. 12 (*see Hansard*).

When the sitting resumed, the debate was adjourned.

WEDNESDAY, DECEMBER 10TH, 1975

PRAYERS

2.00 O'CLOCK P.M.

Mrs. Campbell from the Select Committee appointed to consider Bill 5 presented the Committee's Report which was read as follows and adopted:—

Your Committee begs to report the following Bill with certain amendments:—

Bill 5, An Act to regulate Holiday Closings for Retail Establishments.  
*Ordered for Committee of the Whole House.*

The following Bills were introduced and read the first time:—

Bill 46, An Act to amend The Public Hospitals Act. *Mr. Roy.*

Bill 47, An Act to amend The Public Hospitals Act. *Mr. Roy.*

Mr. Speaker addressed the House as follows:—

Before the Orders of the Day, I would like to clarify for the House if I can the basis of my Ruling with respect to the presentation of Petitions.

A Public Petition is a petition presented under the provisions of Standing Order 83 to the Assembly asking the House to redress some grievance of the Petitioner. What has very often occurred in the past, is that a Member will present a Petition which is not, in fact, a Petition to the Assembly at all, but a request or Petition addressed to a Minister or to a Ministry. Moreover, many of these did not comply with the provisions of Standing Order 83 in other respects and in fact contravened specific requirements of that Order. It was one of these occurrences that led Mr. Speaker Reuter to make his Ruling of June 1st, 1973 in an effort to assist the Members in the presentation of such Petitions. This Ruling may be found in the Journals of that year at page 94. In that Ruling he set out at some length the history and procedure with respect to such Petitions. I refer any Members to that Ruling but it might be useful to quote a brief extract from the last paragraph therefor:

"I felt I should avail myself of this opportunity to point out to the House that the correct procedure, as established in this and other jurisdictions, is that when a Public Petition is to be presented to the House, it is filed with the Clerk's Office in advance, so that it may be scanned to ensure that it does not offend any of the Standing Orders

or precedents. When the Petition is in proper form and within the rules of the House, the Speaker is then advised in advance by the Clerk's Office that the Petition will be presented on that day".

---

The House resolved itself into a Committee to consider a certain Bill and, after some time, Mr. Speaker resumed the Chair, and the Chairman reported, progress on Bill 20, An Act to provide for the Review of Rents in respect of Residential Premises.

---

The House then adjourned at 6.00 p.m.

## THIRTY-FIRST DAY

THURSDAY, DECEMBER 11TH, 1975

---

PRAYERS

2.00 O'CLOCK P.M.

In the course of a Statement the Treasurer Tabled six charts on 1976 Expenditure Projections and related letters. (*Sessional Paper No. 37*).

---

Mr. Speaker addressed the House as follows:—

Before I call for Petitions I wish to make a final statement with respect to the presentations thereof. I can only say that if it is the wish of the majority of the Members of the House to abandon the previous practice, that is of course what will be done. The only reason for the procedure as outlined in Mr. Speaker Reuter's ruling was for the assistance of the Members and is the procedure followed in other jurisdictions. I direct the Members attention to *May's Parliamentary Practice*, 18th Edition, Page 799. However, I am sure that the Clerk's Office will be very happy to be relieved of this extra responsibility.

In accordance with the wishes of the House then, Petitions will be received and laid on the Table without prior scanning. This will, of course, make it necessary for me to examine the Petitions *after* tabling. If on examination it proves to be a Petition or request directed to a Minister, I will, as the Member for Brant-Oxford-Norfolk suggested, send it on to that Minister. If the Petition is in conflict in any way with Standing Orders 83 or 84 it will be returned to the petitioner. If, however, it is a proper Petition within the Standing Orders and sets forth a case in which the House has jurisdiction to interfere, it will be tabled for such action as the House may determine.

A Petition was received from the Member for Timiskaming.

The following Sessional Papers were Tabled:—

Alcoholism and Drug Addiction Research Foundation Annual Report 1973 (No. 38), and for 1974 (No. 39).

Mr. Singer from the Select Committee appointed to consider and set out general rules and guidelines for the guidance of the Ombudsman presented the Committee's Report as follows:—

The Select Committee on Guidelines for the Ombudsman was established on October 29th, 1975, with the following terms of reference:

“to consider and set out general rules and guidelines for the guidance of the Ombudsman.”

The Members of the Committee were Mr. Singer (Chairman) Messrs. Grossman, Lawlor, Hodgson, Norton, Reid (Rainy River) and Renwick.

The Committee has held three meetings. At the request of the Committee, Mr. Arthur Maloney, the Ombudsman, assigned to the Committee, Mr. Ortved, and the Honourable Roy McMurtry, the Attorney General, assigned Mr. John Cavarzan. Both of these gentlemen have been of substantial assistance to the Committee in giving their advice and their continued presence during our deliberations. Mr. Maloney, the Ombudsman, attended on the Committee accompanied by Mr. Brian Goodman, Director of Research for the Ombudsman, and Mr. Maloney outlined his approach to the problems which the Committee was investigating and has made a written submission to the Committee embodying his views, which is attached hereto as Schedule “A”.

Mr. Brian Goodman, Director of Research for the Ombudsman, outlined to the Committee the method the Ombudsman's office has for dealing with complaints. At the request of the Committee this has been submitted to the Committee and for the information of the Members of the Legislature, we attach Mr. Goodman's submission as Schedule “B” to this Report.

It is the opinion of the Committee that:—

1. It would be premature to seek at this time to define or recommend general rules for the guidance of the Ombudsman in the exercise of his function as referred to in Section 16 (1) of *The Ombudsman Act, 1975*. After reviewing other jurisdictions, and exploring, to some extent, the role and function of this office, we are of the opinion that greater on-going experience must be gained as to the range and ramifications of this office on an intimately consultative

basis, before attempting, except insofar as we have done so, a more fundamental delineation of rules. We recommend that the constituted committee working in close co-operative relationship with the Office of the Ombudsman, acquire a working knowledge of the types and varieties of the cases, and difficulties which may be encountered and on a subsequent date, not later than the 15th of June, 1976, the whole question be reviewed.

2. That the following general rules be immediately adopted for the guidance of the Ombudsman:
  - (a) that there be available in the Ombudsman's office such facilities as are necessary to enable those persons who wish to make complaints and who are unable to express adequately themselves in writing to have their views committed in writing by someone on the Ombudsman's staff;
  - (b) that the Ombudsman's office have available as part of its staff, or as the occasion requires, sufficient persons who are fluent not only in English but in other languages used in Ontario, which would allow the Ombudsman's office to properly communicate with any resident of Ontario no matter what that person's language facility may be.
3. The Committee wishes to point out that Section 17 (2) of *The Ombudsman Act, 1975*, which provides for letters addressed to the Ombudsman by inmates of any provincial correctional institution or training school or patients in a provincial psychiatric facility are to be forwarded to the Ombudsman unopened by the person in charge of the institution, training school or facility, but neglects to set out that communications from the Ombudsman to any such person should be forwarded unopened to such person by the person for the time being in charge of such institution, training school, or facility. The Committee believes that the necessary legislative amendment to correct this error should be made.
4. The Committee accepts the suggestion by the Ombudsman that it is premature at this time to delineate elaborately general rules and that there should be sufficient experience of running this office and the difficulties it may encounter and that a second look should be addressed to the provisions of Section 16 (1) and that one of the responsibilities of the Select Committee will be to work out in association with the Ombudsman the general rules for his guidance which can be recommended by that Select Committee.
5. The Committee believes that a permanent Committee of the Legislature should be established immediately so that it may review from time to time the following matters:
  - (a) the Reports of the Ombudsman as they become available from time to time,
  - (b) the Estimates of the Ombudsman,

- (c) the actions, or the lack of action, taken by those persons referred to in the Ombudsman's Reports;

and report in connection with these matters to the Legislature from time to time.

The Committee draws attention to the comments of the Camp Commission on Page 71 which *inter alia* recommends very briefly that "a further small, permanent Standing Committee with responsibility for examination and report on:

- (a) those petitions presented to the Assembly which are referred to the committee;
- (b) any undertaking made by a Minister to a Member of the Assembly which is not fulfilled within 10 days of its being made (the announcement in the House by the Member that the undertaking is unfulfilled would be examined by the Speaker who would rule whether or not the question should go to the committee);
- (c) reports to the Legislature by the Ombudsman."

There was a discussion with Mr. Maloney as to how he envisaged the extent of his powers under the provisions of the Statute. He pointed out that the Statute provides in Section 15 (1) that he has the right to initiate investigations on his own option and it is on this basis that he believes that he has a duty to investigate such matters as possible causes of unrest in the province's penal institutions. Several members expressed concern that the broad powers of the Ombudsman would not be used to establish a new level of political authority.

Mr. Maloney suggested that when the Legislature reviewed his reports from time to time if any of the matters raised in the reports came to a vote that they should be dealt with on the basis of a free vote as is done in some other jurisdictions. Discussions took place about this suggestion and it was felt that if the conduct of a Senior government person, elected or appointed, came into question it might be very difficult, if not impossible, to suggest meaningfully that there could be a free vote in relation to criticism addressed to such a person.

## SCHEDULE A

MEMORANDUM OF REMARKS DELIVERED BY ARTHUR MALONEY, Q.C., THE OMBUDSMAN, TO A MEETING OF THE SELECT COMMITTEE ON GUIDELINES HELD ON THURSDAY, NOVEMBER 13TH, 1975

---

At the outset, allow me to express my appreciation for being given the opportunity to appear here before you and provide you with my views as to the sort of recommendations which you might consider making in the line

of guidelines for the Ombudsman, and also so that I might answer any questions which may have occurred to you in the course of your consideration of your mandate.

It is my understanding that the Select Committee On Guidelines For The Ombudsman has been established to make recommendations to the Legislative Assembly in relation to general rules which the Assembly might adopt in accordance with Section 16 of *The Ombudsman Act, 1975*, which provides as follows:

16.—(1) The Assembly may make general rules for the guidance of the Ombudsman in the exercise of his functions under this Act.

(2) All rules made under this Section shall be deemed to be regulations within the meaning of *The Regulations Act*.

(3) Subject to this Act and any rules made under this Section, the Ombudsman may determine his procedures.

As I also understand, the actual motion establishing the Select Committee was proposed on October 29, 1975 on the motion of The Honourable Roy McMurtry, seconded by Mr. Vernon Singer, and provides as follows:

That pursuant to the provisions of Section 16 of *The Ombudsman Act, 1975*, a Select Committee be appointed to consider and set out general rules and guidelines for the guidance of the Ombudsman and to provide formal recommendations to the Legislature thereon on or before December 1, 1975, the said Committee to consist of seven Members as follows: Mr. Singer, Chairman, Messrs. Grossman, Hodgson, Lawlor, Norton, Reid (Rainy River), Renwick.

It is my further understanding that your first meeting was held on November 5, 1975 at which time each member of the Committee had an opportunity to briefly set forth his views in relation to the terms of reference provided for the Committee and the meeting was then adjourned so that both myself and the Attorney General might have an opportunity to appear and provide whatever assistance we can to the Committee's deliberations.

I might say that I have had an opportunity to discuss the minutes of your earlier meeting with my colleague Niels Ortved whom I requested attend as the representative of the Ombudsman's office and I have had an opportunity to review Mr. Singer's letter dated November 6, 1975 and setting out certain recommendations for regulations for discussion at this meeting. I am anxious to provide you with my thoughts on the sort of recommendations that your Committee might have in mind and I think I can do this by making reference to the suggested recommendations that Mr. Singer sets forth in his letter.

If I could deal first with his suggested recommendations. With respect to recommendation (b), I might say that we are already providing facilities for complaints which come to us verbally to be written down by members of our staff. With respect to recommendation (c), again, we are already ensuring that a citizen may complain to the Ombudsman in whatever

language he chooses to do so and you may be interested to know that I have presently serving on my staff personnel who are representative of and have linguistic capacities in not only English and French, but also Italian, German, Russian, Ukrainian, Czech, Slovak, Polish, Estonian, Yiddish and Hebrew. Now I would concur with Mr. Singer that these are areas which are of critical importance to the credibility of an Ombudsman's office and ought, along with other procedural matters, to be embodied in regulations. On the other hand, it is my view that before we embark upon hard and fast regulations we should have a clear picture of exactly what we are trying to accomplish by those regulations and if there is an ill, what the ill is that we want to remedy. Our office is still in an evolving stage and while we are trying to cope with these problems as they arise we do not yet even have a clear picture as to what all the problems will be. For these reasons, it is my position that this Committee ought not to act prematurely and make regulations which, although appearing appropriate at this point in time, might unduly hinder a subsequent Ombudsman, and wait until the areas requiring a regulatory framework are clearly apparent. In my view, the members of the Committee should refrain from acting until the blueprint which I undertook to prepare during the first year that I held this office is completed by which time it is to be hoped the areas requiring a regulatory response will have been delineated and perhaps even actual regulations will be suggested. In view of all of the foregoing, I would urge you therefor to adopt Mr. Singer's recommendation (d). The alternative is to approve regulations piecemeal. As new procedures appear called for I will implement them, document them and before June 1st, can discuss them with you for possible inclusion in a total package of rules and regulations.

If I might move on to his recommendation (e) which suggests that your Committee might recommend that a permanent Standing Committee be established. As you may be aware, also in connection with my commitment that I draw up this blueprint for the office of the Ombudsman that would be best suited to the needs of Ontario, I have recently returned from inspecting offices and meeting with my counterparts and officials of their office in the United Kingdom, France, Germany and Israel. The concept of a Standing Committee is one that I encountered only in England and it impressed me as a novel idea to ensure that some follow-up action was taken as a result of the Ombudsman's report. In England, Niels Ortved and myself met with Mr. David Scott, Clerk of the Select Committee on the Parliamentary Commissioner for Administration and Mr. Charles Fletcher-Cooke, Chairman of the same Committee. That Committee is appointed annually to examine the Reports of the Parliamentary Commissioner for Administration which are laid before the House and matters in connection therewith. It is comprised of eight members, four labour, three conservative and one independent, and is invariably chaired by a member of the opposition, currently Mr. Charles Fletcher-Cooke. The Committee is modelled on the Select Committee which receives and considers the report of the Auditor General and in the course of its proceedings will hear from Sir Alan Marre, the Parliamentary Commissioner for Administration, who will highlight the recommendations and criticisms contained in his Reports and then call before them representatives of the various ministries, whether senior civil servants or ministers themselves, to ascertain the action taken as a result of the Parliamentary Commissioner's recommendations. Everyone, including the members of the Committee, the Parliamentary Commissioner for Administration

and the representatives of the various ministries agree that this Committee provides an added measure of effectiveness to the office of the Parliamentary Commissioner for Administration that it might not otherwise have. This is a concept to which I am giving very serious consideration of drawing up my blueprint. One of the problems that I have been considering is with reference to the procedure to be followed, if, as and when a case arose that the Ombudsman is required to invoke his ultimate sanction—namely an appeal to the Legislature. The peculiar problem directed to my attention is as to whether or not, when such a situation arose and it culminates in a vote, should the vote be a free vote and not along party lines. If it were to be a free vote it would, of course, be on the understanding that it would not be regarded as a vote of confidence in the Government.

I should like to address myself to the requirements of Section 12 of the Statutes which require that the Ombudsman shall report annually upon the affairs of his Office to the Speaker of the Assembly. I may say that I regard that as a minimum requirement and it is my intention to file interim reports where I should deem them to be necessary to give effect to the true spirit and intent of the Legislature.

I would like to address myself to Mr. Singer's recommendation A, namely, his recommendation that consideration be given to enacting regulations so as to limit the field of investigations by the Ombudsman.

At the time that I undertook the Office of Ombudsman it was my determination that the persons who receive the first priority in my office would be the hundreds of individual complainants who feel that in some particular way they have been overlooked or mistreated in the course of the functioning of a provincial governmental organization and these individual complainants are the ones that the procedures in my office have been first designated to serve. In a few moments Brian Goodman our Director of Research will detail the procedures currently followed in the Office of the Ombudsman for dealing with such individual complaints. Mr. Goodman's presentation will be attached to mine.

As I debated my decision to assume my present responsibility one of the features of the legislation that appealed to me most and really accounted for my decision was the provision set out in Section 15 (2) which provided me with the opportunity to become involved in problem areas hopefully before they matured and either produced great numbers of complaints or something even worse. As I see it, the power conferred on the Ombudsman to make investigations of his own motion should be utilized in a fashion which will have the effect of diminishing the incidence of complaints.

I was glad to see that importance was attached to this power by some of the Members of the House who contributed to the debate when the Ombudsman Act was under consideration. Mr. Renwick for example in referring to the Ombudsman's right to act on his own motion commented on this provision as being fulsome and complete. Mr. Lawlor contemplated the Ombudsman in what he called "the widest swath and most benign way possible" The Honourable Mr. Clement who was then Attorney General made reference to the Ombudsman's powers in this regard as well.

I rather incline to think one of the problems on your mind is the announcement I made recently to conduct a preliminary investigation into conditions in Provincial penal institutions around the Province. You are all familiar with the brief prepared by the CSAO expressing alarm about certain conditions in the penal institutions. That particular problems may be presented by provincial correctional institutions is a fact that has achieved recognition in *The Ombudsman Act, 1975*, itself in that Section 17 (2) of the Act provides that letters written by inmates of any provincial correctional institution and addressed to the Ombudsman shall be immediately forwarded, unopened, to the Ombudsman by the person for the time being in charge of the institution. In my office, I have created a separate directorate headed by Ellen Adams, with whom I am sure you are all familiar, which will have as its primary responsibility the problems to be found in provincial correctional or psychiatric facilities. I may say that I have delivered a number of speeches on the role of the Ombudsman to various groups and organizations and on all those occasions I was careful to point out how intervention by the Ombudsman in relation to prison problems in particular would have the effect of averting riots and disturbances and thereby save the taxpayer the dollars that are always lost on such occasion not to mention the fact that this intervention might avert the loss of human life. Thus when I pick up the newspaper and read that certain responsible representatives of a respected body such as the CSAO are saying that riots are imminent in correctional facilities throughout the province that conditions are inhumane, overcrowded and totally lacking in discipline and when I have been given the power conferred on me by Section 15 (2) and having some knowledge of the type of problems these institutions might present, it seems to me that I would be derelict in my duty if I were not to initiate whatever action is open to me at least to ascertain the precise nature of the situation. Under Section 15 (1) of the Act the allegations made related to alleged acts and omissions of a governmental organization namely the Ministry of Correctional Services.

Further what I should point out and perhaps something on which I did not place sufficient emphasis, we are in receipt of complaints from approximately 75 to 100 inmates of provincial penal institutions concerning grievances that relate to overcrowding, sanitation, problems of segregation lack of privacy, etc. It would be grossly inefficient if the Ombudsman were to initiate 75 separate investigations and would be much more costly than the sort of inquiry I announced would be undertaken. The results of the inquiry that is under way might tend to diminish the incidence of such complaints in the future. What I have undertaken is a preliminary examination as a result of which I hope to be able to say whether or not in my view a further and more extensive investigation is necessary. If I do conclude that a full scale investigation is required, I will make that recommendation to the Ministry of Correctional Service and it is immaterial to me whether the office of the Ombudsman carries out this investigation or it is carried out by the Ministry or by a Commissioner designated by the Ministry. The advantage of utilizing the office of the Ombudsman for such an investigation is that it would be conducted more efficiently and expeditiously not in the glare of the press in a public hearing. If the office of the Ombudsman were asked to undertake the responsibility for such an investigation I would require that additional staff be seconded to the office by the Ministry and at the expense of the Ministry so that the day-to-day

operations of the office would not be interrupted but in the end I would not be concerned if this investigation, if required, were undertaken by someone else altogether. Whether or not I recommend an investigation will depend on a series of reports I will receive next week.

I want to emphasize once again that this power to initiate investigations of my own motion into other than individual grievances is one of the features of the job that most appealed to me in that I see in this function an opportunity to act in a preventative as opposed to a remedial fashion. In connection with this power to initiate investigation you may be interested to know that I have a special desk established in my office which receives the daily papers from around the province and the individual manning that desk is responsible for scanning those papers to ascertain problem areas or potential problem areas in respect of which I might see fit to intervene or investigate of my own motion. It seems that to have it any other way would put me in the position of the Parliamentary Commissioner for Administration in England or the Mediateur in France who not only must act solely on the petition of a complainant but must wait until those complaints are channeled to him via a member of the elected Assembly. This is a feature of the systems in England and France which I did not favour and which in my view drastically delimits the effectiveness of an Ombudsman. I might add that in the course of the past three months I have spoken to a large number of gatherings all over the province totalling well over fifteen thousand people and this power to initiate complaints on my own motion is a power in respect of which I have found nothing but approval.

I may say that as I study the operation of The Ombudsman Act I propose to maintain a record of whatever difficulties, if any, may be encountered with a view to making suggestions to you about possible amendments if these should be required. For example Section 17(2) of the Act permits inmates of penal institutions or psychiatric facilities to send their letters unopened to the Ombudsman. There is no corresponding provision to deal with letters from the Ombudsman to the inmate. This is a detail that could be corrected by way of future amendment although I am sure in the meantime senior custodial officers under the direction of the Ministry will deliver any correspondence from my office to inmates of these institutions without opening or otherwise inspecting them.

I should explain to you that I have carefully read the debates in Hansard relating to *The Ombudsman Act* and have derived much help and assistance from the advice thereby given by the Members of the House participating.

I am particularly mindful of the suggestions that were made for example by Mr. Samis, Mr. Renwick relating to the necessity of the Ombudsman travelling to certain points in the province—to various parts of the province so as to make himself realistically accessible to the people he has been appointed to serve.

You will be interested to know that I have laid on a program of public hearings around the province so as to enable individuals or groups of individuals and organizations to appear in a public setting to express their views as to how the newly created office of Ombudsman can best serve

the requirements of their particular area. The first such hearing—the pilot project in the program was in North Bay on November 4th and 5th. The Members of the House who recommended that the Ombudsman travel around in this fashion can surely feel satisfied that they gave me good advice in view of the experience we had in North Bay. The response of the public was excellent, the support of the news media was unreserved and the whole undertaking was a great success confirming the wisdom of my plan to conduct further public hearings around the province. I should say too that in North Bay members of my staff accompanied me and we were able to conduct private hearings and about 95 members of the public in the North Bay area availed themselves of the opportunity to present private grievances to us. These grievances were presented in a confidential setting and saved the individual complainants the inconvenience of writing to us or of coming to Toronto to see us. Similar opportunities to present private grievances will of course be provided at any of the public hearings it is my intention to hold in the future in other parts of the province.

I will now ask Brian Goodman to outline the procedures we are presently following in the Office of the Ombudsman to deal with individual grievances—Mr. Goodman.

## SCHEDULE B

Presentation by Brian P. Goodman to Select Committee on Guidelines

November 13, 1975

### PROCESSING AND DISPOSITION OF COMPLAINTS (OTHER THAN THOSE INVESTIGATED BY THE OMBUDSMAN OF HIS OWN MOTION)

There are three ways by which complaints reach the Ombudsman's office, namely:

- (1) Through a telephone call to the Ombudsman's office made by the complainant or someone on his behalf;
- (2) Through the complainant, or someone on his behalf (including his Member of Provincial Parliament) meeting with a member of the Ombudsman's staff;
- (3) Through a letter received by the Ombudsman's office from the complainant, or someone on his behalf, again including his Member of Provincial Parliament.

#### (1) COMPLAINTS RECEIVED BY TELEPHONE

Complaints received by telephone are generally fielded by our Director of Interviewers and his staff. In keeping with section 17 (1) of the Act, the complainant will be asked by the interviewer whether it is convenient for him to reduce his complaint to writing, and either mail or deliver it to the Ombudsman's office.

However, should the telephone interviewer be of the opinion that the complaint relates to an urgent matter, he or she will reduce the complaint to writing for the complainant, and confirm the contents of the complaint by letter to the grievor as soon as possible.

Should the complaint lie outside the jurisdiction conferred upon the Ombudsman by *The Ombudsman Act, 1975*, the complainant will be so advised, including the reasons therefor, and will further be advised of who we think is the proper authority or official to which his complaint should be made.

To accomplish this end, our office is developing a referral system for all levels of government, and private organizations, such as the Law Society of Upper Canada and the Royal College of Physicians and Surgeons.

## (2) COMPLAINTS MADE IN PERSON

Should the complainant during the course of his telephone conversation with a member of the Ombudsman's staff indicate that he is unable to make his complaint in writing, he will be asked whether it is convenient for him to attend at one of our office facilities to make his complaint in person to a member of our interviewing staff.

If the complainant is unable to make the complaint in writing because he writes in a language other than English, he will be requested to make the complaint in writing in the language of his choice. Members of our staff are capable of translating some ten languages other than English, including of course French.

If no member of our staff is able to translate the letter, the letter will be sent to a translation service, and of course, in keeping with the Act, an oath of confidentiality will be administered to the translator.

Complainants who attend in person at one of our office facilities are interviewed by a member of our interviewing staff, who again will take down the complaint in writing and have the complainant sign the notes of the interview if possible.

In any case, the contents of the complaint will be reduced to writing in order that no problems may arise in the future with respect to the complainant denying that we had properly taken down his complaint.

Photocopies will be made of all original documents, and the originals returned to the complainant.

Again, if the complaint is not within the jurisdiction of the Ombudsman, the complainant will be so advised and we will attempt to put him in touch with the agency or person who can properly deal with it.

## (3) COMPLAINTS BY LETTER

The majority of complaints are made to the Ombudsman's office by letter, as discussed under the previous headings.

Once the complaints have been reduced to writing, the correspondence and documentation are sent to the File Control Officer and her staff.

The letters and documents are read and a synopsis of each complaint is prepared on a complaint file summary, which is inserted in a file jacket.

The jacket is assigned a chronological number, a ministerial suffix code, a regional colour tab, and a priority colour dot. A cross reference index is maintained alphabetically by complainant and numerically by complaint number. The complaint file summary is progressively completed as the file is acted upon by the legal, research and investigative staff, and on resolution of the complaint, the final disposition and recommendation is recorded. If a priority colour dot is affixed to the file jacket, the file is sent immediately to the Legal Officer and his staff.

Should the File Control Officer be of the view that the matter complained of clearly lies within the jurisdiction of the Ombudsman, a letter of acknowledgement will be sent to the complainant and the file returned into the central system. Thus complaints, other than urgent ones, are tended to in the order in which they are received by our office.

If the matter complained of, in the view of the File Control Officer, clearly lies outside of the Ombudsman's authority, or should any question of jurisdiction exist, the file is directed to the Legal Officer and his staff.

The Legal Officer receives the files dealing with complaints which, to the mind of the File Control Officer, are either outside of the Ombudsman's jurisdiction or else where some question of jurisdiction exists.

If the Legal Officer is of the view that the matter complained of lies outside of the Ombudsman's jurisdiction, a letter along the lines previously discussed is sent to the complainant.

If some question of jurisdiction exists in the mind of the Legal Officer, the file would pass to the Director of Research and his staff for appropriate research and consideration.

If, after such research, the Director of Research concluded that the matter was outside the competence of the Ombudsman, he would send out a letter to the complainant as discussed above.

The Legal Officer would also receive all files relating to complaints within the jurisdiction of the Ombudsman. Where research was necessary, the file would be directed to the Director of Research and his staff who would review the file and the appropriate legislation and case law to determine the status of the law and its application to the complainant.

The Legal Officer, in consultation with the Director of Research, would then consider the facts of the case, in light of the legal research for the purpose of providing some guidance to the Director of Investigation in the investigation of the grievance by the Director and his staff.

The Director of Investigation would then supervise the investigation of the complaint by his staff, ensuring that the staff complied with the provisions of the Act in this regard, and that all persons able to give information helpful to an understanding of the complaint and its possible resolution were interviewed and their views canvassed. Before investigating the complaint, of course, the Ombudsman or the staff member so delegated would inform the head of the governmental organization affected of the Ombudsman's intention to make the investigation.

Upon the completion of the investigation, the Director of this branch would then submit a report containing the results of his investigation to the Ombudsman, who with the assistance and advice of the Legal Officer, the Director of Research and the Director of Investigation, would review the file with the view to determining what the disposition of the complaint should be, including whether any recommendation should be made to the governmental organization complained of.

Assuming the complaint was found to be valid, the Ombudsman would report his opinion and his reasons therefor to the appropriate governmental organization and Minister, including any recommendations which he saw fit to make. The Ombudsman would also inform the complainant of the result of his investigation, pursuant to section 23 of the Act.

Assuming recommendations were made by the Ombudsman, if within a reasonable time after the report was made no action was taken which seemed to the Ombudsman to be adequate and appropriate, the Ombudsman would, after considering the comments, if any, made by or on behalf of the governmental organization affected, send a copy of the report and recommendations to the Premier.

Should it still appear that no appropriate or adequate action is taken, the Ombudsman could exercise his discretion and make a report on the complaint and his recommendations to the Assembly.

Important elements of each closed complaint file will be extracted for a complaint data bank from which regular, periodic reports will be issued to the Ombudsman in preparation for his annual report to the Speaker of the Assembly, and any interim reports which the Ombudsman chooses to make. The data bank will also be used in conducting special analyses on complaint profiles.

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:—

Yesterday I stated that I would examine the document tabled by the Member for Timiskaming. While the covering statement from the Member for Timiskaming, which is unsigned, is addressed to the Lieutenant Governor and the Legislative Assembly, the document itself calls on the Government through the Ministry of Health to take executive action in establishing a chronic care hospital in the old Kirkland and District Hospital, and it also clearly contravenes Standing Order 84 in that it contemplates a charge on the public revenue.

I have therefore, as I undertook to do in such cases, forwarded it to the Minister of Health for his consideration.

Mr. Speaker then said:—

MAY IT PLEASE YOUR HONOUR:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal year ending the 31st day of March, 1976."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly:*

I am pleased to address you at the close of this First Session of the 30th Parliament of Ontario.

The Government's business has embraced the establishment of a framework for Ontario's participation in the national anti-inflation program over the next two years, as well as the enactment of legislative items of pressing importance.

The Ontario position on Canada's anti-inflation program was enunciated in the Legislature on October 30th. Ontario has elected to place its public sector under the direct authority of the Federal Anti-inflation Board as the only way to ensure that the guidelines are uniformly applied throughout Canada.

Ministers of Government have been holding discussions with leaders of the various sectors of the economy to seek their co-operation in adhering to the principles of the anti-inflation program. In the new year, similar discussions will take place with local government authorities and school board officials throughout the province.

The Province of Ontario is itself committed to making further economies in the crucial area of government spending and has announced major initiatives to help achieve this. They cover:

- reduced borrowing of funds by Ontario Hydro,
- extension of the present freeze on public service complement,
- freezing salaries of senior civil servants to the end of 1976,

- placing limits on provincial assistance to local governments,
- and adoption of a provincial expenditure growth target of 10% for 1976-77.

At the same time, Provincial grant limits for 1976-77 have already been announced to give the various public agencies and institutions adequate time to prepare their budgets accordingly.

In the past year, Ontario's economy felt the effects of the continuing international economic recession. While conditions improved toward the end of the year, real growth will this year be slightly lower than the level for 1974.

Output in Ontario manufacturing industries was hurt by two main factors: a slowdown in housing construction throughout the country affected the production of durable goods in Ontario; and the province's automobile industry was harmed by poor American demand.

Over 111,000 new jobs have been created in Ontario since January 1975. However, because of significant increases in the size of the labour force, growth in employment has not kept pace with the number of people seeking jobs. Young people and women in particular have had difficulty finding employment.

Ontario looks ahead to improved economic performance to help create more new employment. Ontario and Canada look to the national program of wage and price restraints to moderate inflation. The Government's appeal cannot be too strongly emphasized nor too often repeated that all Ontarians are urged to do their part to help make the national anti-inflation effort a success.

It continues to be the policy of the Government to encourage public reviews of matters of vital public import. During this Session, two such key issues were referred to Select Committees of the Legislature: Ontario Hydro's proposals for increases in bulk power rates next year, and the question of rent review.

In the first instance, the requirements and interests of industrial customers, municipal utilities, the general public and Ontario Hydro itself have been fully taken into account. All parties concerned can be reassured that a final decision will have been based on proper consideration of all the issues.

Similarly, the work of the Select Committee on Rent Reviews and Tenant Security has made a notable contribution to the enactment of legislation which, while aimed primarily at ensuring fair treatment of tenants who may face unreasonable rent increases, has sought to achieve an accommodation that is equitable to both tenant and landlord.

In other legislation, an amendment to the Assessment Act will bring some relief to owners of high-rise condominium or co-operative apartments through lower assessments and resulting lower property taxes.

Guidelines issued last month to the Ontario credit-rating industry established a code of reference aimed at providing women equality of access to credit.

Effective January 1, 1976, Ontario will become the first province in Canada to require mandatory use of automobile seat belts. It is greatly expected that this measure, together with new lower speed limits, will save on Ontario's energy consumption bill, on the Province's hospital and medical care costs and, most important, will save many Ontarians from injury or death on our highways in the years ahead.

The swearing-in of Ontario's first Ombudsman on October 30th added an honoured democratic tradition to the administration of government in the province. Ontario proudly joins seven other Canadian provinces in the establishment of this office which will provide greater protection than ever before for the individual rights of all Ontario residents in relation to the Government.

The fifth report of the Ontario Commission on the Legislature, published this fall, concluded a task set by unanimous agreement of the Members of this House three years ago. It remains of the highest importance that the processes of the Assembly be in keeping with the times if this body is to serve the people of Ontario in the best way possible. Several recommendations in the earlier reports have been implemented and a Select Committee has been considering the final document. On your behalf, I wish to thank the Commissioners for their unfailing efforts in carrying out this assignment.

On November 20, the report of the Government's Special Program Review Committee was tabled, the result of a 6-month examination of provincial expenditures. The overall objective is to achieve improved productivity in government and restrain the growth of government spending.

While it is patently clear that government spending in Ontario must be restrained, it is also the responsibility of the Government to continue to provide the services that people need. The Government is hopeful that internal efficiency measures using existing human and physical resources, and expansionary initiatives in the private sector can together achieve a better balance in providing for the needs of the people of Ontario. The Committee's 184 recommendations have potential consequences for all Ontarians, and public response to the report is sought prior to the Government's determination of implementation decisions.

Honourable Members, I thank you, in our Sovereign's name, for your diligence in the performance of your duties, and for the many accomplishments of this relatively short Session.

In declaring the Session prorogued, I wish to join with you in expressing Season's Greetings to all the people of Ontario, and I pray that you will have a safe and enjoyable holiday with your families and friends.

God bless the Queen and Canada.

The Government House Leader then said:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

3.00 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly of Ontario:*

Au nom de notre souveraine, je vous souhaite la bienvenue à l'ouverture de la troisième session de la trentième Législature de l'Ontario.

I welcome you, in our Sovereign's name, to the opening of the Third Session of the Thirtieth Parliament of Ontario.

This Legislature is called into Session at a time of optimism about Ontario's ability to maintain the quality of life of its citizens, and a time of careful evaluation of the opportunities open to the Province. Our province today faces some critical economic realities. The economic vitality and protection of its people require, as never before, a capacity to make choices and set priorities. In recognizing this, the Government of Ontario has supported and will continue to play its full role in the national anti-inflation program, as part of its greater commitment to protect the well-being of millions of citizens.

My Government has no illusions about the capacity of the national anti-inflation program to perform without flaw or inequity. Continuing discussions relating to appeal procedures and the general performance of the Anti-Inflation Board will be pursued through the spring. Profit restrictions and wage limitations imposed on the public should be reflected in similar limitations on government spending at all levels.

For its part, Ontario will continue to curtail its costs and to reorder its priorities in the provincial and national interest, in the hope that other governments and the private sector will be encouraged in the battle against inflation.

Such restraint will allow consolidation and security of essential services in Ontario. We now enjoy one of the finest and most complete social service systems in the world. To maintain and preserve what Ontarians have worked to achieve in this field, it is necessary to streamline government programs regularly to prune out redundancies or waste that might arise.

The Province's financial commitment to health, education, social and municipal programs will not be reduced. The 1976 Ontario budget to be introduced by the Treasurer on April 6 will indicate that the Province will be spending more on all these services than ever before. Needed constraints are being applied in certain areas so that essential services may continue to be provided with adequate funds and, where necessary, be permitted to expand.

We must face the fact that government spending at all levels is a major cause of inflation. It is a time for the Government, for the Legislature, for agencies receiving public funds and for the people to reassess programs and define priorities in terms of needs rather than wants.

This year, the increase in provincial funds transferred to the municipal sector will be 8% over the amount transferred last year. Municipalities and school boards will be responsible for ordering their priorities, with a view to an acceptable municipal tax load, municipal services and local needs.

The challenge in the years ahead will be to preserve the quality of the social and material environment that has been created. My Government believes this can best be done by maintaining a healthy climate for free enterprise which, in turn, will provide the capital investment and the new job opportunities that are needed. Employment security is the only real income security a free society can afford for the vast majority of its citizens.

By limiting government activity to essential services, vital capital and manpower will be available for a more productive and buoyant economy. Unnecessary expansion of colleges, universities, schools, hospitals and other major capital projects will be curtailed wherever possible. Highway construction not yet commenced will be limited to the most essential work.

A strong economy will require the co-operation of labour and the private sector to protect our standard of living, employment levels and international competitiveness. Specific foreign trade initiatives, aimed at exporting complete large-scale development projects, will be pursued through overseas trade programs with a view to generating jobs in Ontario.

There are few problems more urgent than dispute resolution in the labour relations field. The Ministry of Labour will intensify its examination of the collective bargaining process with the aim of recommending substantive changes to reduce the incidence of industrial conflict.

Legislation will be introduced to provide that public funds which are not spent because of strikes by school board employees will be returned to the public through reduction of local taxes.

My Government is aware of its responsibility to ensure that those who are in genuine need receive social assistance. On the other hand, those who have alternatives to assistance must utilize them to contribute to their own well-being. People who have opportunities for employment, whether part-time, seasonal or full-time, will be required to take advantage of those options and, in fact, seek them. A system will also be initiated to provide recipients of financial assistance more active help in locating employment.

The Government believes that universal accessibility for all citizens of Ontario to an efficient and technologically superior health care system is a critical priority for the taxpayer. The Ministry of Health will therefore concentrate on improving the provincial health system to maintain the highest levels of health care while at the same time making it as cost-effective as possible. Savings will be achieved, affecting three to four per cent of the total present hospital service capacity in the province, by reducing the total number of beds, and by amalgamation of services among hospitals in the same area.

There will be no reduction in nursing home beds. The budget for ambulance programs and research will be maintained with no reduction. Community mental health programs for children and adults, public health units and home care programs will continue to receive strong support. Occupational health services will receive top priority.

My Government gives the assurance that all essential health care needs of the people of this province will be met. It must be emphasized that the constraints being implemented are cost-effective measures. The overall results will allow health resources to be used more effectively for the benefit of all who need them.

The long-term security of Ontario depends in great measure on the protection of our agricultural production. To this end, in support of an overall effort to achieve a national plan for the farming community, provincial legislation will be introduced to establish a voluntary farm income stabilization plan.

To strengthen consumer price measurement and assist in the overall assessment of the national anti-inflation program, the role of the Ontario Food Council will be expanded in its research and public information functions.

Stricter meat inspection and improved livestock and poultry protection will be enforced.

Ontario will seek reciprocal safeguards for agricultural products in negotiations with the Government of Canada prior to the international discussions

on the General Agreement on Tariffs and Trade. As well, marketing activities in overseas trade missions will be promoted through the Ontario Food Council.

You will be asked to support development goals for increased productivity of agricultural lands, and the use of less productive land wherever possible for more housing development.

The Government will propose changes to The Mining Tax Act which, by altering the tax treatment of exploration expenses, will make exploration as attractive in years of low metal prices as in boom times. Exploration activity is vital to the mining industry, which has been a stable contributor to the economy of Northern Ontario for more than 30 years and has maintained an employment level of 50,000 people.

The Government will seek the support of the House for a program of legislation to improve the administration of justice in Ontario. The judiciary will be expanded to meet the backlog of cases in all levels of courts. A Blind Persons' Rights Act will entrench in law rights for blind members of the community. Reforms in estates law will include revisions concerning the rights of children and spouses in property matters.

A New Home Warranties Act will make provision for registration of home builders and administration of a warranty plan to protect home buyers from builder defaults and poor workmanship.

A study of the rise in alcohol-related driving offences, particularly by young people, is now under way, and will be completed during this Session. Based on information received through public forums and expert advice, a series of initiatives will be proposed to respond to this problem. The overall question of highway safety, accident prevention and driver education will be referred to a Select Committee of the Legislature, for preparation of legislative recommendations to the Assembly.

The prospect of energy supply shortages and price increases is a continuing concern. The Government will maintain its policy of protecting the consuming public and industrial users in Ontario from energy shortages, while making every effort, short of subsidization, to cushion the effects of higher energy prices. It is my Government's intention to represent strongly the interests of the consuming public and the industrial sector of Ontario in discussions with the Federal Government and other Provinces.

A program to upgrade insulation and energy conservation features in public buildings will be initiated in provincial buildings, hospitals and educational facilities. New buildings will be subject to higher thermal performance standards. This will establish a base for co-operation with the private sector to stimulate further energy savings.

The capacity of Ontario's economy to grow through the vitality of the private sector must be protected. This will generate the wealth that is necessary to ensure economic opportunity and employment security for all Ontarians, while maintaining government services in the fields of justice, health and education and social programs.

My Government seeks the support of all Members of the Legislature in guiding Ontario evenly through challenging economic times. Responsible, purposeful and limited government, aimed at increasing productivity, achieving economic stability and avoiding economic risks or hardship for the individual citizen, is the key to a brighter, secure and more promising future for all citizens of Ontario.

Honourable Members, as you begin this new Session, I wish you well in carrying out these and other important and demanding duties in the service of Ontario and its people.

God Bless the Queen and Canada.

Before the Orders of the Day, Mr. Speaker delivered the following statement:—

I wish to inform the House of an unfortunate incident which occurred during the interval between Sessions. On January 20 at approximately four o'clock in the morning a fire broke out in a vault in the office area of the Clerk of the House. Primary investigation by the Fire Marshal indicated that the cause of the fire was a non-thermally protected ballast in a fluorescent light fixture. However, subsequent laboratory examination has not been able to pinpoint the cause of the fire. Considerable damage was done to some of the records of the House, principally from 1968. However, I am happy to report to the House that provincial archives personnel report that the majority of the documents lost will be replaceable.

Because of the time required for electrical and construction work to be carried out in the fire area, Members may experience some delay in obtaining copies of documents they would normally receive from Room 110. However, the Clerk of the House has assured me that every effort will be made to maintain the usual service.

I am sure that Members of the House would want me to express their gratitude to the City of Toronto Fire Department, personnel of the Ontario Government Protection Service, the Ontario Fire Marshal's office, the Ministry of Government Service and, particularly, to the conservation staff of the Provincial Archives who are continuing to work diligently on the restoration of the Sessional Papers of this House. It was through the diligence of Patrol Superintendent George Sloan of the Protective Service that this building escaped more serious damage which could indeed have been disastrous.

---

On motion by Mr. Welch,

*Ordered,* That, this House will now resolve itself into the Committee of Supply.

---

The House, according to Order, resolved itself into the Committee of Supply, to consider Estimates of the Ministry of Health.

and after some time,

Mr. Speaker resumed the Chair, and the Chairman reported progress, also, That the Committee had directed him to ask for leave to sit again.

*Ordered*, That the Report be received.

*Resolved*, That the Committee have leave to sit again.

The House then adjourned at 6.00 p.m.

But this Legislature regrets the inability of this government to meet its responsibility for necessary programs as a result of the deterioration of the fiscal capacity of the Province during successive Progressive Conservative governments.

And further, this Legislature regrets the failure of the government to provide in the Speech from the Throne any significant proposals to deal with the pressing problems of:

- (a) occupational health and the lack of adequate safeguards for the health and safety of workers;
- (b) need to preserve agricultural land;
- (c) need for a more equitable distribution of economic opportunity throughout the province, and in particular to Northern and Eastern Ontario;
- (d) need for job creation to offset rising unemployment;
- (e) inadequate housing supply, and rising mortgage interest rates;

And this Legislature moreover regrets the mismanagement of the government's restraint program leading to:

- (a) the failure to develop an overall policy for the delivery of health care services, especially as exemplified by the closing of small community hospitals and public laboratories;
- (b) the failure to respond adequately to financial needs for vital social services, particularly as exemplified by the inadequate funding arrangements offered to Children's Aid Societies;

And further still:

This Legislature is opposed to the endless burdening of Ontario taxpayers exemplified both by the excessive increase in municipal property taxes which will result directly from this government's policies and by the additional concessions to the mining industry specifically set out in the speech of the Honourable Lieutenant Governor.

The amendment to the motion as follows:—

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

But this Legislature regrets the inability of this government to meet its responsibility for necessary programs as a result of the deterioration of the fiscal capacity of the Province during successive Progressive Conservative governments.

And further, this Legislature regrets the failure of the government to provide in the Speech from the Throne any significant proposals to deal with the pressing problems of:

(a) occupational health and the lack of adequate safeguards for the health and safety of workers;

(b) need to preserve agricultural land;

- (c) need for a more equitable distribution of economic opportunity throughout the province, and in particular to Northern and Eastern Ontario;
- (d) need for job creation to offset rising unemployment;
- (e) inadequate housing supply, and rising mortgage interest rates;

And this Legislature moreover regrets the mismanagement of the government's restraint program leading to:

- (a) the failure to develop an overall policy for the delivery of health care services, especially as exemplified by the closing of small community hospitals and public laboratories;
- (b) the failure to respond adequately to financial needs for vital social services, particularly as exemplified by the inadequate funding arrangements offered to Children's Aid Societies;

And further still:

This Legislature is opposed to the endless burdening of Ontario taxpayers exemplified both by the excessive increase in municipal property taxes which will result directly from this government's policies and by the additional concessions to the mining industry specifically set out in the speech of the Honourable Lieutenant Governor.

Therefore, the government has lost the confidence of this House.

The debate was resumed, and, after some time,

Ms. Bryden moved, seconded by Mr. Lewis, that all the words after "that" be struck out, and the following added:

This House regrets the introduction of a budget responding only to the fiscal impasse of a government which, having overborrowed and overspent during its four years in office, recorded an election year deficit approaching two billion dollars;

and regrets the paralysis of the government when faced with 263,000 people unemployed and the passive acceptance of a continuing unacceptable rate of unemployment in excess of 6%;

and regrets the most inequitable feature of the budget, the increased premiums for health care, which highlights the preoccupation of this government with unfair and regressive taxes without considering existing and other alternative sources of revenue;

and regrets the choice by the government of policies, dictated by this impasse and paralysis, which fail to create jobs and which cut back vital programmes in health, education and social services, causing more unemployment, and which force regional and other municipal governments and school boards to increase taxes on property;

and regrets the failure of the government to introduce programmes

—stabilizing the income of farmers;

- preserving land for agriculture;
- making available medical, dental and other essential social services within a basic economic framework in northern Ontario particularly in unorganized municipalities in any way comparable to southern Ontario;
- providing the incentives and opportunities which would stimulate the orderly economic development of eastern Ontario;
- protecting the health of people working in our industries;
- meeting the need for public transit in the regions, towns and cities;
- producing quality housing at reasonable prices; and
- reducing the dependence of our natural resource industries on foreign capital.

Before the Orders of the Day, Mr. Speaker addressed the House as follows:—

On Wednesday last the Minister of Government Services announced to the House the engagement of Professor Eric R. Arthur to act in an advisory capacity with respect to the preservation, maintenance and restoration of this building and its historic features, particularly in view of those changes which modern conditions impose for the better service of the Members and the general public.

The Member for Ottawa Centre quite properly questioned this announcement by the Minister insofar as it pertains to this Chamber and those parts of this building which are directly under the Speaker's jurisdiction. He also pointed out that the recommendations of the Camp Commission respecting the jurisdiction in and proposed alterations to this building are presently under study by the Select Committee studying the Fourth and Fifth Report of the Commission.

I am pleased to report to the House that I have received an apology from the Minister for her unintentional encroachment on the jurisdiction of the Speaker. More important, in my view, is the fact that I have had an opportunity to meet and confer with Professor Arthur and I have requested him to make himself available as consultant and advisor to me in his specialized field, and also to make his advice available to the Select Committee if the Committee so wishes. I know the Members will agree with me that Professor Arthur's abilities and experience will be invaluable in ensuring that any necessary changes will conflict as little as possible with the architectural and historic beauty of this fine old building.

PRAYERS

2.00 O'CLOCK P.M.

I know that the Members will be saddened to hear that Major Reginald Soame who has served this House with distinction for a number of years has been compelled by ill health to retire. I know that I express the feelings of all the Members when I wish for his improved health.

At the same time, I am pleased to announce that Mr. Thomas Stelling who is well-known to all of you and who has been a diligent and faithful servant of this House for a great many years, most recently as Chief Legislative Attendant and during Major Soame's enforced absence Acting Sergeant-at-Arms, has been appointed Sergeant-at-Arms to succeed Major Soame. Mr. Stelling will continue to exercise the duties that he has performed in the past, joined with the ceremonial duties of Sergeant-at-Arms, so that he will continue to direct the Attendants and Pages, such duties properly being the responsibility of the Sergeant-at-Arms.

Annual Report of the Algonquin Forestry Authority, 1975-76 (*No. 130*).

A return was tabled to Question No. 141 (*Sessional Paper No. 131*).

Before the Orders of the Day, Mr. Speaker informed the House as follows:—

Yesterday the honourable member for Oakwood introduced a bill to amend the Motor Vehicle Accident Claims Act. It has been brought to my attention that as this bill calls for an expenditure of public monies, it is out of order for a Private Member and must be removed from the Order Paper.

Mr. Timbrell moved, seconded by Mr. Irvine,

That the Order for adoption of the Final Report of the Select Committee (*Sessional Paper No. 84*) inquiring into Hydro's proposed bulk power rates be discharged but that the House adopt the following Resolution in lieu thereof:—

“That the Legislature adopt the policy direction of the Select Committee's report and the modifications as proposed by the Government to specific recommendations as follows”: III-7. (re bulk metering) That, the Legislature endorse the study of bulk metering practices now being conducted by Ontario Hydro and the municipal utilities to be completed within 12 months, and that, recommendations from Ontario Hydro be considered by the Government at that time; and that, in the interim, the Legislature further endorse the moratorium on conversions to or from bulk metering which has been initiated by the municipal utilities. III-11. (re revolving capital pool for industry) That, pending study by the Government as to the financial implications and statutory requirements of a revolving capital pool for industry, and as to whether this would be the best technique to encourage energy conservation by industry, a decision on this recommendation be deferred. III-18. (re peak reduction targets) That, the Government make an interim report to the Legislature within 2 months on the specific peak demand reduction targets which are to be met by Ontario Hydro for each year over the next 10 years, and the changes, Legislative

and otherwise, which must be made to permit a workable load management program. III-23. That pending the development of, and experience with, Hydro's load management program, Ontario Hydro not further reduce its targets for adding generation capacity in the next 10 years. III-24. That, pending the development of, and experience with, Hydro's load management program, Ontario Hydro not develop a new generation plan which would reduce its planned growth in its generation capacity. III-27. (re James Bay) That, the Government request Ontario Hydro to continue its investigations of the potential which might exist for Ontario from developments of the hydro-electric potential in the Baie James area of Quebec; and that, in view of public hearings being held by the Royal Commission on Electric Power Planning and their intent to make recommendations to the Government on hydro-electric resource development in the Province, the Government advise Ontario Hydro that there will be no development of the Albany River at this time. III-28. (re examination of nuclear commitment) That, the Legislature endorse the review of nuclear power being conducted by the Royal Commission on Electric Power Planning. III-29 (iii) (re monitoring Select Committee) That, in order to permit sufficient time to implement the recommendations approved by the Legislature, consideration of a monitoring Select Committee be deferred for 1 year. IV-3. That, considering water power is an energy resource in the same vein as coal, uranium, oil and natural gas, Ontario Hydro not be exempt from water power rentals.

At the conclusion of his remarks, Mr. Timbrell Tabled certain amendments, which, by unanimous consent were included in the motion as follows:—

- (i) That, concurrent with Hydro's load management programme and the establishing of specific peak demand reduction targets for each of the next 10 years, Hydro develop a new generation plan which would reduce its planned growth.
- (ii) The Ontario Government appoint a Select Committee as the appropriate public forum to examine Hydro's nuclear commitment not later than the Fall of 1977.
- (iii) That the government commits itself to the appointment of a monitoring Select Committee to commence work not later than the Fall of 1977.

During his wind up of the debate, Mr. Timbrell Tabled a letter from Ontario Hydro (*Sessional Paper No. 132*) and Ministry submission to Royal Commission on Electric Power Planning, Part Two (*Sessional Paper No. 133*).

The motion was then carried, as amended.

## EIGHTY-FIFTH DAY

MONDAY, NOVEMBER 22ND, 1976

PRAYERS

2.00 O'CLOCK P.M.

In a personal explanation, the Leader of the Liberal Party withdrew certain critical remarks concerning the Speaker which he had made outside the House and which were reported in the Press. He assured the House that he did not intend to insult the Speaker or his position.

Mr. Speaker addressed the House as follows:—

I must comment briefly on the occurrences of Thursday last, and the point raised on Friday by certain members.

When a Member disagrees with an answer that he has received from a Minister, that does not constitute either a point of order or a matter of privilege. He should present his version either by giving notice of his desire

for a debate on adjournment to take place on the following Tuesday, as provided in Standing Orders 27 and 28, or he should take some other early opportunity of expressing his viewpoint, perhaps by the careful phrasing of a Supplementary Question. What happened on Thursday is that it had developed into a pointless argument back and forth across the floor as to who was right and who was wrong in an interpretation of criminal law. When I attempted to bring an end to this argument, the Member for Ottawa East accused the Minister of misleading the House. On re-examination of the Precedents, I have come to the conclusion that while it is not an offense to suggest that a Member is in error and therefore perhaps misleading the House inadvertently, it is very clear that an accusation of deliberately misleading the House is not parliamentary; I refer you to May's Parliamentary Practice, Nineteenth Edition, page 430, at the bottom on the first paragraph on that page, and to Parliamentary Debates (1972-1973) 859, c. 186. While the Member for Ottawa East did not in fact use the word "deliberate" that was undoubtedly his meaning in the context in which he used the expression. I feel that it was equally clear that in his accusation the Member was imputing motives to the Minister; I refer you to Standing Order 16 (a), paragraph 9. I therefore had no alternative but to ask him to withdraw the accusation.

## NINETY-FOURTH DAY

FRIDAY, DECEMBER 3RD, 1976

PRAYERS

10.00 O'CLOCK A.M.

Following the Question Period, Mr. Speaker made the following statement:—

On Tuesday last the Member for Wilson Heights rose on a point of order respecting a remark of the Premier's on Monday.

Before dealing with the specific matter, I should again point out, as I intimated on Tuesday, that if something is said or some incident occurs which is, in the opinion of any Member, out of order, he must raise the point immediately. It cannot be delayed 24 hours or more and then raised. Once the incident has been allowed to pass without objection or has not been caught by the Speaker, that is normally the end of the matter.

However, in view of the fact that this type of allegation has been actively before the House recently, and now that it has been called to my attention, I feel I should deal with it even though, owing to the uproar in the House at the time, I was unable to hear the exchange on Monday.

I have now consulted Hansard and I find that after the Premier had answered a question relating to the projected Reed Paper Company Development in northwestern Ontario and outlined the government's intention, Mr. Lewis is quoted as saying "At any cost, eh, at any cost". The Premier took objection to this remark, pointing out that it implied that his specific statement was untrue at which time he used the expression "and it is totally irresponsible, misleading to the House and to the public to create any other impression".

I call the attention of the House to Standing Order 16(a), paragraph 10, which states that it is out of order to charge another Member with uttering a deliberate falsehood and under this general prohibition it has been clearly stated both in this House and in the Parliament of the United Kingdom that it is unparliamentary to accuse another Member of deliberately misleading the House. It is quite possible that the remark of the Leader of the Opposition carries an implication that the Premier was not telling the truth but, in any event, I suggest that it is very clear that the remark does impute an improper motive to the Premier; I refer you to Standing Order 16(a), paragraph 9. On the other hand, while the phrase "misleading to the House and to the public" does not by itself appear to be worded as an accusation of deliberate intent, I feel that in the context in which it was used it does carry that implication. In view of the recent occurrences I think the Members will agree that it is time that they be more careful in their choice of words so that no improper implications may be presumed.

For the above reasons, I feel strongly that the whole exchange was improper and that both the Leader of the Opposition and the Premier should withdraw their remarks.

Following the Speaker's statement, the Premier and the Leader of the Opposition both made statements which were satisfactory to the Speaker.

Mr. Villeneuve from the Standing Social Development Committee presented the Committee's Report which was read as follows and adopted:—

The Adjourned Debate on the amendment to the amendment to the motion, That this House approves in general the Budgetary policy of the Government, was resumed,

And after some time, the amendment to the amendment as follows:—

That the amendment be further amended by adding the following words:—

And further that this government has failed to respond adequately to:

1. The administrative problems which have undermined the tenants' accessibility to and confidence in the rent control procedures, and to recognize by legislative action the need to ensure protection against unfair rent increases after July 1977;
2. The need for the early implementation of policies to designate prime agricultural foodlands throughout Ontario;
3. The obvious need to develop manpower programs, job retraining programs and job creation programs;
4. The neglect of adequate management of our forest resources—which neglect should clearly mean the abandonment of the proposed Reed Paper transaction,

and therefore the Government does not enjoy the confidence of this House.

The amendment to the motion as follows:—

That all of the words after "That" be struck out and the following added thereto:—

This House regrets the introduction of a budget responding only to the fiscal impasse of a government which, having overborrowed and overspent during its four years in office, recorded an election year deficit approaching two billion dollars;

and regrets the paralysis of the government when faced with 263,000 people unemployed and the passive acceptance of a continuing unacceptable rate of unemployment in excess of 6%;

and regrets the most inequitable feature of the budget, the increased premiums for health care, which highlights the preoccupation of this government with unfair and regressive taxes without considering existing and other alternative sources of revenue;

and regrets the choice by the government of policies, dictated by this impasse and paralysis, which fail to create jobs and which cut back vital programmes in health, education and social services, causing more unemployment, and which force regional and other municipal governments and school boards to increase taxes on property;

and regrets the failure of the government to introduce programmes

—stabilizing the income of farmers;

- preserving land for agriculture;
- making available medical, dental and other essential social services within a basic economic framework in northern Ontario particularly in unorganized municipalities in any way comparable to southern Ontario;
- providing the incentives and opportunities which would stimulate the orderly economic development of eastern Ontario;
- protecting the health of people working in our industries;
- meeting the need for public transit in the regions, towns and cities;
- producing quality housing at reasonable prices; and
- reducing the dependence of our natural resource industries on foreign capital.

having been put was lost on the same division.

*Mr. McKeough.*

*Ordered,* That the Bill be read the second time forthwith.

The Bill was then read the second time.

*Ordered,* That the Bill be read the third time forthwith.

The Bill was then read the third time and passed.

The Honourable the Lieutenant Governor of the Province entered the Chamber of the Legislative Assembly and took her seat upon the Throne.

Mr. Speaker addressed Her Honour in the following words:—

“May it please Your Honour:

The Legislative Assembly of the Province has at its present Sittings thereof passed certain Bills to which, in the name and on behalf of the said Legislative Assembly, I respectfully request Your Honour's Assent.”

The Clerk Assistant then read the titles of the Bills that had passed as follows:—

“The following are the titles of the Bills to which Your Honour’s Assent is prayed:

Bill 131, An Act respecting Farm Income Stabilization.

Bill 135, An Act to provide for the limited inclusion of Grapes grown outside Ontario in Ontario Wine.

Bill 139, An Act respecting Employees’ Health and Safety.

Bill 168, An Act to amend The Corporations Tax Act, 1972.

Bill 169, An Act to amend The Income Tax Act.

Bill 170, An Act to amend The Retail Sales Tax Act.

Bill 171, The Funeral Services Act, 1976.

Bill 187, An Act to amend The Regional Municipality of Hamilton-Wentworth Act, 1973.

Bill 189, An Act to establish the Unified Family Court.

Bill 190, An Act to amend The Judicature Act.”

To these Acts the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

“In Her Majesty’s name, the Honourable the Lieutenant Governor doth assent to these Bills.”

Mr. Speaker then said:—

“MAY IT PLEASE YOUR HONOUR:

We, Her Majesty’s most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty’s person and Government, and humbly beg to present for Your Honour’s acceptance a Bill intituled, “An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal year ending the 31st day of March, 1977.”

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

“The Honourable the Lieutenant Governor doth thank Her Majesty’s dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty’s name.”

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

I am pleased to address you at the close of this Third Session of the Thirtieth Parliament of Ontario.

More than 80 bills have been granted Royal Assent during this period. Among them, the new Employees' Health and Safety Act has brought into force key recommendations of the Royal Commission on the Health and Safety of Workers in Mines. The provisions enacted so far include establishment within a single ministry—the Ministry of Labour—of all responsibility for occupational health and safety legislation. Further plans are in progress to extend the application of the proposals at the core of the report to include industrial safety and construction safety, and to produce in a comprehensive omnibus bill an occupational health code for working men and women throughout Ontario.

New legislation was introduced in the fall to establish a fairer and firmer structure of law in dealing with matrimonial property and in providing for support in cases of marriage breakdown. These family law reforms are the culmination of years of study and consultation based on recommendations of the Ontario Law Reform Commission. Passage of the legislation has been postponed to allow more time for responses from interested parties and for further review.

The establishment of a commodity income stabilization program, as provided for in the new Farm Income Stabilization Act, is a vital step in protecting the future of farming and food production.

Royal Assent was given to legislation on warranty plans for new homes, to protect purchasers against added costs and inconvenience caused by poor construction workmanship. These provisions take full effect at the end of this year.

To help meet the demand for housing in Ontario, the provincial Housing Action Program, originally scheduled to end in March 1976, was extended for another year. The scope of the Ontario Home Renewal Program, designed to help low and moderate income homeowners, has been broadened to include rental accommodation. The provincial Rent Review Program, established in 1975, has been successful in stemming rapid rent increases faced by many tenants in recent years, and in keeping rents in line with anti-inflation objectives.

Following the Ontario Budget of April 6, a Property Tax Reform Commission was appointed, under the chairmanship of Mr. Willis Blair. Public hearings have been in progress since June, and the Commission is expected to report in the new year. The reforms will seek to achieve a new system of taxation, based on a province-wide standard for the assessment of property, and one which Ontario's taxpayers will see as more equitable and more efficient.

New Select Committees of the Legislature have been appointed to investigate highway safety, transportation of goods and corporation law, and to review reports of the Ombudsman.

The House also received the final report of the Select Committee on Ontario Hydro's proposed bulk power rates.

At the Federal-Provincial energy price negotiations, Ontario put forward the position that any price increase be related to production costs and to increasing the incentive to develop and expand energy production. It was, and remains, the Government's stand that energy cost increases should not be used as a means of providing additional revenues for governments at the consumer's expense.

At the same time, the Government of Ontario is aware of its responsibility in ensuring that, throughout the province, efforts be made to conserve all forms of energy in everyday use. Ontario's energy management program to achieve savings in all sectors of the economy is well under way.

Over the past year, potential industrial energy savings of more than \$15.6 million have been identified by the Ministry of Industry and Tourism's "energy bus" in its province-wide travels. Insulation requirements for housing to help conserve energy have been defined in the new Ontario Building Code which came into effect on April 1st. Energy Conservation Week, observed from October 31 to November 6, had appreciable results in schools, businesses and municipalities throughout the province.

A new 5-year agreement between Ontario and the Federal Government, signed March 12, ensures fulfillment of continuing obligations on Canada and the United States to improve the quality of the Great Lakes. The agreement includes provision for prior consultation between Canada and Ontario on all proposals for discussion with the United States, and places greater emphasis than before on environmental assessment and protection.

Within the province, it has been the expressed policy of the Ontario Government to ensure thorough consultation with the public in issues of major long-term significance. The province's economic priorities and their projection to the end of the anti-inflation program and beyond are among several such questions now facing all Ontarians.

As announced recently, the Government will be inviting representatives of Ontario's labour, business, consumer, agricultural and social organizations to participate in a conference, next February 10 and 11, to be entitled "Partnership for Prosperity". The conference will provide a forum for discussion on the future direction of the provincial economy and the post-controls period.

The management of growth is another important question with longer-term implications. The Government has taken steps to stimulate public discussion on the subject with the publication, in April, of eight reports relating to provincial and regional development and the pattern of future life in the province. A covering statement, *Ontario's Future: Trends and Options*, outlines basic elements of a broad planning strategy for the province and indicates the Government's priorities.

Ontario's First Environmental Assessment Board was appointed in April to perform the essential function of reviewing assessments of major public development projects that may have significant effects on the environment. The new Board also assumed the activities of the Environmental Hearing Board under The Environmental Protection Act and The Ontario Water Resources Act.

In October, terms and conditions for the proposed development of a new integrated forest industry complex in Northwestern Ontario created a framework for the most intensive environmental evaluation of this kind for any undertaking by the private sector. This review, under the provisions of The Environmental Assessment Act, 1975, will be undertaken by Mr. Justice Patrick Hartt. The scope of the inquiry will encompass the social, cultural and economic interests of Northern residents. Ultimate approval of the projected enterprise will depend on proposals for a comprehensive forest management program, satisfactory environmental safeguards and the protection of Native rights. If approved, the project anticipates an investment of \$400 million and the creation of some 1,200 new jobs.

New regulations, effective April 1st, established stricter eligibility criteria for general welfare assistance recipients, including a requirement to seek employment. The stipulation is extended to encourage recipients to regain a measure of self-reliance, as well as to prevent abuses to the system.

On the same date, guaranteed annual income levels in Ontario were adjusted to ensure that the full benefits of federal old age security and guaranteed income supplement increases were passed on to Ontario GAINS recipients. The minimum wage in Ontario was raised on March 15 to a general rate of \$2.65 per hour, and to \$2.90 an hour for construction industry employees.

The problems of continuing inflation have been squarely challenged. The judgement of the Supreme Court of Canada in favour of the national anti-inflation program, and subsequent legislative endorsement by Members of this House for Ontario's involvement in the program, enabled the Province to pursue several necessary initiatives.

• The Government looks to all citizens to place continued emphasis on economic prudence and restraint in the larger interest of the public good. The Province's preliminary budgetary plans for 1977 have been placed before the Legislature. Municipalities, school boards and government-funded bodies have been advised well in advance of levels of support that will be forthcoming in provincial transfers so that an even better job of planning ahead may be achieved for the new year.

Rounds of talks at the First Ministers' level have placed renewed focus on patriation of Canada's Constitution and on Federal-Provincial fiscal arrangements. The former issue affects all Canadians as individuals, inasmuch as it affects the future of Canada as a nation, and it is the view of the Ontario Government that the public must have every opportunity to be fully informed as matters progress. On the latter subject, new revenue-sharing terms for the next five years, beginning April 1st, 1977, were agreed on with the Government of Canada in discussions in Ottawa this week.

Canadians everywhere shared in the success of the Games of the XXI Olympiad in Montreal in July. Ontario played a part in staging the Games by holding qualifying tournaments in several cities, and was honoured with a visit by Her Majesty Queen Elizabeth II to the sailing competitions at Kingston.

Honourable Members, the record of achievement during the course of this Session has been substantial. I thank you, in our Sovereign's name, for your loyalty in carrying out your duties, and I wish you all a safe and happy holiday season.

I now declare this Session prorogued.

God bless the Queen and Canada.

The Government House Leader then said:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

3.00 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly:*

Monsieur le Président, Mesdames et Messieurs les membres de l'Assemblée législative:

I welcome you to the Fourth Session of the Thirtieth Parliament of Ontario, in this the Silver Jubilee year of our beloved Sovereign.

Les vingt-cinq années depuis l'accession au trône de la Reine Elizabeth II ont été marquées par de nombreux changements en technologie de même que dans le développement économique et social. Au Canada, comme en Ontario, ces changements ont transformé notre mode et notre rythme de vie.

The faith and optimism which Ontarians share with respect to Canadian Confederation emerge from a deep conviction about Canada and about Ontario's place and role within Canada. It is not enough, however, for Canadians to face the challenges posed by Confederation simply with faith and hope. There must be a concrete program in place which sustains national identity, broadens national dialogue and cements the ties of nationhood.

By sponsoring a Forum on Canadian Destiny, in June, the Government of Ontario will provide Canadians from all corners of our country an opportunity for constructive interchange and dialogue which, if pursued, should lead to greater understanding and sharing among regions and language groups.

The Government will also take steps to increase the number of student and teacher exchanges that now take place between Ontario and the other Provinces of this country. We feel that this type of person-to-person contact and communication has tremendous value in furthering understanding. We shall therefore seek the co-operation of industry and organized labour to develop similar exchanges for people in other walks of Canadian life.

At the same time, my Ministers will continue to co-operate with the Federal Government and with the other Provinces in every way to ensure that no needless division separates us in seeking the common goal of national unity and reconciliation.

A citizen's faith in, and commitment to his or her community and country remain the most important elements in building a nation. They are qualities that can make a national crisis manageable and temporary. But faith and commitment, if they are to be sustained, require that there be equitable distribution of economic opportunity.

It remains the Government's conviction that, in light of the level of unemployment across the country and the presence of a strong provincial government in Quebec that is committed to the partition of our country, all federalists who hold fiscal responsibilities must do what they can to keep our economy on a path of honest and strong growth. Economic arguments may not dissuade the hard-core romantics of separatism, but economic results are vital to the survival of this country.

Unfair concentration of economic power in the hands of a few, and denial of opportunity to some, through no fault of their own, represent a potential danger to the people of Ontario and to national unity. It is a threat against which the Government must be prepared to act if the fundamental fairness that binds our nation together is to remain part of the self-view of all Canadians.

In this respect, it is important that Ontario should hold out to Canada and Canadians an example of the stability and fairness that typify the best of democratic society. We must offer an example of a Province where personal success is attainable by all who are willing to make a fair contribution. We must ensure, as the Province of Opportunity, that each citizen can participate fully in all aspects of life in Ontario, because we recognize equality of opportunity as the springboard to significant achievement.

This Government firmly believes that the national Anti-Inflation Program should continue until the Federal Government and the Provinces have developed a clear strategy to moderate inflation after the controls are lifted. Toward this goal, Ontario will set in motion a series of steps that will build upon the initiative begun with the recent Partnership for Prosperity Conference. This exercise, so crucial to our future well-being, will involve extensive consultation with, and the full co-operation of industry, labour and all segments of Ontario Society—an example now also being pursued by the Federal Government.

Joint government/private sector relations cannot go very far, however, if our eleven senior governments are going off in as many different directions. Thus, we must re-establish a sense of shared national purpose, for without common national goals there cannot be confidence, and without confidence there cannot be growth.

Ontario's commitment to the AIB is also coupled with a commitment to ensure basic protections from unacceptable high costs for the citizens of our Province. The Rent Control Program, initiated in 1975, will be continued until the scheduled end of the Anti-Inflation Program, and legislation to this effect will be presented to the House. Further, the Government will present various policy options for continuing protection for tenants, to be implemented after the termination of the Anti-Inflation Program.

It is clear, however, that beyond the positive protection that it offers for tenants, rent control acts as a negative force in the drive to create new rental units in significant numbers. Only when more rental accommodation is available can market forces again take over and rent controls be eliminated. The Ministry of Housing will therefore introduce a specific program to stimulate rental construction in areas of low vacancy. It is the Government's belief that this incentive will markedly increase rental supply, thereby easing the pressure on rents in the future.

Further, working in close co-operation with federal and municipal governments, my Government will continue to increase the amount of rental housing for senior citizens and families of low income. Such efforts in the rental field will complement the recently announced federal/provincial AHOP/HOME program which now places home ownership within the reach of families of very moderate income.

As well, a series of legislative measures will be introduced to improve and secure the rights of condominium owners, both as purchasers and as residents.

To ensure full opportunity and a bright future for our people we need to expand the job-creating sectors of the Ontario and national economies. Coordinated and intensive efforts must be made to reverse current high levels of unemployment.

To this end, it is hoped that significant assistance will be furnished through the Federal Budget to be presented on March 31. In turn, Ontario will complement federal actions intended to create employment, and develop our

own fiscal policy to stimulate the economy and expand the Province's work force.

An additional stimulus to the provision of employment expansion opportunities is the continuing success of this Province in restraining government spending. This limits government demand on private capital which can be directed toward the generation of jobs and growth.

The particular unfairness of national unemployment, to young people especially, and to our population as a whole, requires a specific government response.

Special funding to create jobs, in both the private and public sectors, will be a feature of the new Ontario Budget. This initiative will place particular emphasis on the needs of young people who bear an unbalanced proportion of overall unemployment in Canada.

In its commitment to equality of economic opportunity for all Ontarians, the Government will focus special attention on Northern and Eastern areas of the province.

Legislation will be presented to confirm the establishment of the new Ministry of Northern Affairs which will deal with the economic and social development of Ontario's Northern regions.

The fundamental aim of the Government's overall Northern program is to continue to increase the standard of living of Northern residents. This Government opposes any view that would commit the people of Northern Ontario to economic disadvantage through an unreasonable and unthinking rejection of economic development. My Government believes accommodations can and must be made to protect our recreational and natural heritage without condemning part of our population to economic inequality.

In this vein, the Government will present amendments to The Environmental Assessment Act, as recommended by Mr. Justice Hartt, to assist in his examination into the feasibility of a major forest development in Northwestern Ontario. This review will pay particular attention to native, environmental and social considerations. At the same time, steps will be taken by my Government to examine and report on such development potential as might reasonably and responsibly be explored to the benefit not only of the people of the North, but of all Ontario.

Increased efforts to reforest Crown lands, wherever licensed harvesting is permitted, will ensure the perpetual availability of renewable timber resources and continued economic prosperity in the North.

The Ontario Northland Transportation Commission will assume a new role in the development of tourism in Northern Ontario. ONTC and the Ministry of Industry and Tourism will plan and promote new recreational attractions in conjunction with those of established tourism interests, local councils and

local business. The Commission's acquisition of four modern unit trains and delivery of a seventh aircraft to norOntair this spring are expected to figure largely in these efforts.

The impetus for effective economic development east of Metropolitan Toronto and in Eastern Ontario will be provided by locating significant government operations in selected areas. Details will be presented to the House early in the Session.

In recent years, my Government has undertaken various measures to establish a more open and responsive relationship with the people of Ontario. In accepting the recommendations of the Select Committee of the Legislature on the Camp Commission, the Government has paved the way for the most open and balanced legislative forum in Canada. It is a forum whose expanded workload and openness require particular co-operation from all sides of the House. Sittings of the Assembly are already televised and filmed by the media. The Ombudsman's access to documentation on behalf of the citizens of our Province is an example of openness unprecedented in Canadian parliamentary institutions.

In order that further progress might be made in broadening the processes of government and information-sharing, and in order that this progress might be pursued with a proper concern for personal privacy, a Commission on Freedom of Information and Individual Privacy will be named to study and recommend to the Legislature, during this Session, appropriate means of ensuring both.

As further evidence of the Government's intention to follow this direction, a new Audit Act will be introduced giving the Provincial Auditor extensive new powers in serving the public interest through greater scrutiny of government expenditures and by ensuring internal efficiency and economy.

The recommendations of a Committee on Customer Service, which have already been made public, will be acted on through a special task force of senior government officials and the appointment of a new Customer Service Co-ordinator. The major objectives of this program are the simplification of government procedures and the improvement of public service sensitivity to the citizens of Ontario.

As citizens have a right to open and responsive government, they have also a right to due process of law and effective administration of justice. The Attorney General will present The Courts Administration Act to initiate a new approach to judicial administration. The Act will give appropriate recognition to the fundamental principles of judicial independence and ministerial accountability to the public. Family law legislation brought forward initially during the last Session will be reintroduced.

You will be asked to consider amendments to the Police Act. This step follows considerable consultation with police commissions, police forces and representatives of various groups, and is intended to establish a code of behaviour and complaint procedures that will protect both the general citizenry and members of our police forces.

The Ministry of Education will launch three significant initiatives related to language instruction. The first will improve opportunities for young people to learn French as a second language. To achieve this, school boards will be offered increased financial incentives to encourage them to improve and extend French-language instruction programs in elementary schools across Ontario.

Ontario's French-language education system now serves, in 369 French-language schools, 106,000 students whose first language is French. The Government reaffirms its commitment to this system, and will introduce special legislation to guarantee establishment of a French-language secondary school in Essex County.

Increased emphasis on language opportunities will be reflected in innovations that recognize the multicultural nature of our population. More resources will be available for intensive English-language instruction for children of recent immigrants.

At the same time, while recognizing that French and English are the languages of instruction in Ontario's schools, a Heritage Language Program will be supported, as a continuing education offering, to help Ontario's many ethnic groups retain a knowledge of their mother tongues and continuing appreciation of their cultural backgrounds. The Government accepts and values the multicultural character of our Province, and believes that encouraging children to understand the language and culture of their parents contributes to the quality of both education and family life.

In the past decade, Ontario has seen a rapid growth of special services for children and youth. This Province stands second to none in the number, variety and quality of services that now exist.

The Government intends to unify these programs so that the needs of individual children will be better served. More effective co-ordination will be achieved through legislation to consolidate provincial services for children with special needs within a single, integrated organization in the Ministry of Community and Social Services. Special education services will continue to be provided by the Ministry of Education and school boards.

In addition, provisions will be made for common licensing requirements, operating standards, and funding arrangements for group homes, youth residences, children's institutions and related services.

My Government reaffirms that it is a primary responsibility of parents to care for their children, who should remain in their own homes wherever possible. To this end, the new children's division will encourage the development of family support services. It thus follows that the responsibility for developing appropriate services for the care of children with special needs should rest with local communities. Accordingly, legislation will be introduced to give local governments the authority and resources to ensure the provision of special services for their own children.

The health and safety of working men and women in Ontario remain important priorities for my Government. New legislation will be introduced,

incorporating all occupational health and safety matters in one statute. The Ministry of Labour will hold consultations with interested parties with the aim of accommodating in the legislation the needs and concerns of the entire community.

The aspect of prevention in other health and safety programs cannot be overstated. Our seatbelt and speed limit regulations have saved many lives, prevented thousands of serious injuries and saved society much grief and millions of dollars in lost work and hospitalization. Avoiding death and carnage on the highways is a continuing concern of the Government and one which all Ontarians share.

During the Session, legislation will be introduced to establish a probationary period for new drivers, regardless of age. Further changes will await the report of the Select Committee on Highway Safety.

Because the evidence is clear that the most effective health programs are those that place their emphasis on prevention, my Government will take steps, through the Ministry of Culture and Recreation, to introduce a province-wide physical fitness program designed to encourage Ontarians to care about their health and well-being and to avoid, through that care, unnecessary hospitalization, illness and hardship.

My Government's continuing commitment to clean air and water and a healthy environment will be advanced through amendments to The Environmental Protection Act, The Ontario Water Resources Act and The Pesticides Act.

A central unit will be established for monitoring, research and control of hazardous chemicals, such as PCBs, mercury and lead.

An inventory of all abandoned or inactive mine operations which are sources of contamination will be compiled, and responsibility for clean-up will be determined and pursued. Where ownership or responsibility cannot be established, Provincial funds will be used for the clean-up.

The Government will provide assistance with respect to the increasing cost of municipal services to meet environmental needs. A particular priority, concurrent with my Government's commitment to the East and the North, will be afforded through servicing assistance to these areas. Amendments to legislation will provide municipalities with provincial financing and assistance for alternatives to traditional treatment systems, particularly in smaller communities.

Ontarians can take pride and satisfaction from the development of nuclear power in our Province, a source on which we will be increasingly dependent in the short term. The Pickering Generating Station is one of the safest, most efficient and cost-effective energy-producing facilities in the world. The Bruce Generating plant, now under construction, is among the additional nuclear projects already contributing to our energy supply.

However, it is clear that in the long term it will be increasingly difficult to rely solely on nuclear energy or fossil fuels for our total energy requirements.

A planning process is needed now for the transition to other energy sources. A report will be placed before the House indicating the types of changes envisioned. Greater emphasis will be placed on research, development and demonstration of renewable forms of energy.

The Government is committed to a war on waste at every level of energy utilization, from large-scale activities such as those related to transportation, industrial and community use, to daily use by the individual home or apartment dweller. The ability to provide improved standards of living for an expanding population will depend on the degree to which the people of Ontario share in this commitment.

While my Government has shown an ongoing interest in the growth and prosperity of small businesses, it is recognized that further special efforts are required. For this reason, an Ontario Advisory Committee on Small Business will be established to serve as a forum for small business interests and to make recommendations on improving their management, financial and marketing capabilities.

In addition, my Government will launch a Small Business Management Development Program and will work with universities involved in the Small Business Assistance Program to offer consulting help on a year-round basis.

The Ontario Development Corporation will expand its assistance to small business firms by lowering its lending rate to up to 2% below the basic rate for loans up to \$200,000, and by raising the current loan limits.

Protections for franchise holders, which will help encourage investment in small business, will form part of a new Franchises Act.

A new Securities Act will simplify securities regulations and provide better information and more protection for public investors.

The Ministry of Consumer and Commercial Relations will undertake a major educational program. This will include the establishment of a Consumer Education Resource Centre, a series of consumer information programs through the facilities of TV Ontario, and increased emphasis on consumer information material.

Tourism, a major earner of foreign currency for Canada, employs over 200,000 people in Ontario's hospitality industry. To help redress the national tourism balance of payments deficit that has recently developed, greater emphasis will be placed on promotional activities for vacations in Ontario.

The Government will determine the feasibility of a Hospitality Institute which would seek to improve standards, level of services and management within the 15,000 small businesses in Ontario's tourism industry.

Economic growth and industrial stability are interdependent. The Ministry of Labour will promote new initiatives in labour-management co-operation, including improvements in conciliation and mediation services, and the appointment of a representative committee to advise on collective bargaining matters and other issues of common concern.

The real guarantee of economic security and advancement for the unionized and other working men and women of Ontario remains in the vitality and dynamism of a well functioning free-enterprise economy, stimulated by investment, confidence and faith in the stability and fairness of Ontario's society and institutions.

Legislation will be reintroduced for province-wide, single-trade bargaining in certain sectors of the construction industry. This reform, which will reduce the number of bargaining situations from over 200 to about 20, should do much to promote stability in this vital sector of the economy.

A financial review of the operations of the Workmen's Compensation Board and an analysis of the benefit levels are currently in progress. Once they are completed, the Government will introduce legislation to adjust benefits to meet inflationary stresses and the legitimate needs of disabled workmen and others, who benefit now from one of the most generous and comprehensive compensation schemes in the free world.

The land we live on is a fundamental and finite resource, a fact that makes the responsibility of government to protect and husband its use a matter of paramount importance. Measures will therefore be taken to provide a clear focus and strong co-ordinating function for the development of land use policies, including the protection of our agricultural foodlands.

The Provincial Secretary for Resources Development will be given a strengthened mandate to co-ordinate the land use policies of Ministries and to expedite the resolution of land use issues. Administrative responsibilities will remain with respective Ministries and with municipalities, but central assessment and co-ordination at the provincial level will assure the best uses for our land through an overview of individual, community and provincial interests, which will be implemented through the process of official plan approvals.

In particular, the Government will resist pressures to prejudice the land equity of the farming community. Within the context of the foodland guidelines, brought down by the Ministry of Agriculture and Food, which serve to protect, by definition, the foodland needs of Ontario, farmers cannot be singled out as the target of any unfair land freeze schemes. My Government firmly believes that the present and future needs for foodlands can be met in Ontario without inequitably prejudicing the farming community.

In this Session, the Government will reinforce its programs to increase agricultural productivity with legislation to limit topsoil removal from prime agricultural lands, and with plans to return significant acreages to full production.

The maintenance of valuable foodlands in agricultural production merits an accompanying and increased consumer loyalty toward Ontario food products. Marketing strategies and a promotional campaign for Ontario foods will be pursued in both domestic and export markets to stimulate purchases of high quality Ontario agricultural produce.

Ontario has enjoyed massive increases in per acre production over the last ten years—increases which have produced a greater security of food supply

than has ever been achieved in such a highly urbanized society. Initiatives under the Young Farmer Program, Venture Capital Program and others will enhance the profitability of farming in Ontario and underline the Government's endorsement of the role of free enterprise, sound management and personal initiative in the economic structure of family farming in Ontario.

Many current concerns about future economic security centre on private and public pension plans, their administration and the use being made of these resources.

The Government will appoint a Royal Commission on Pension Plans to make an in-depth review and assessment of pension plan administration throughout Ontario. This step will be taken with a view to necessary changes or other approaches to ensure that contributors receive fair benefit and protection.

The question of pensions is but one aspect of the concern of our society for citizens in their retirement years. My Ministry will continue to give high priority to the needs of the aging population and will increase the number of assessment and placement services to ensure that senior citizens receive care appropriate to their needs.

In particular, more funds will be designated for home care and home support services so that more of our senior citizens may remain in their own homes and avoid unnecessary institutionalization. Efforts will be made to link these funds to involvement by young people in Senior Service program initiatives, thus providing them with employment and service opportunities while adding to the security and well-being of older members of our society.

In all, the wide-ranging program placed before this Assembly is directed at building a sense of promise and of national pride in Ontarians stemming from a fair and balanced society and from the opportunities we have within that society. It is a program of confidence in the future of our Province and nation. It seeks economic stability and the protection of our natural and human resources. It is geared toward achieving growth and generating employment. It is a program aimed at distributing economic opportunity fairly throughout Ontario. With dependable legislative co-operation, it can be achieved by this Assembly by the end of the present year.

My Government's program provides for every Ontarian the opportunity to live in freedom, work in peace and attain self-fulfillment and satisfaction. It assures our people that their Ontario, our Ontario, affords them the capacity to shape their own particular and unique part of the Canadian dream in confidence, security and freedom.

Honourable Members, I now leave you to the discharge of your duties. May Divine Providence guide you in your deliberations.

God bless the Queen and Canada.

Her Honour was then pleased to retire.

*Reports Tabled:—*

Fifth Report of the Standing Public Accounts Committee.

Your Committee reports that after a full review of the documentation filed with the Committee and a full discussion with the Minister and officials of the Ministry, it is of the opinion that the Minister, Ministry, Management Board and Cabinet did not ascertain all the pertinent facts before taking over Minaki Lodge and indeed showed gross incompetence and bad management.

The Committee therefore recommends:

1. That every reasonable step should be taken by the Ministry to dispose of the assets of Minaki Lodge by sale to the private market.
2. Failing recommendation number 1, the Government should develop a plan for the future of Minaki Lodge and report to the House as soon as possible.
3. That every Ministry of the Government when presenting a submission to Cabinet for capital funding for a major project, such as Minaki Lodge, must fully develop a complete plan after a thorough investigation and the presentation should include all projected capital and operating costs as well as all related costs (i.e. hydro, roads, etc.).

Your Committee further recommends that the Government should explore the process for acquisition of property by the Development Corporations and examine the appropriateness of retaining ownership by the Development Corporations as compared to direct ownership by a Ministry or by an appropriate Crown Corporation.

---

Sixth Report of the Standing Public Accounts Committee.

The Committee is of the opinion that the governments exemption of Ronto Development Corporation from land speculation tax by regulation made April 14th 1976, and all circumstances related thereto, require the fullest investigation, which can best be conducted by a Select Committee of the Legislature with power to sit while the House is in session, power to retain counsel and staff and power to send for persons and papers.

The Committee further recommends that the Legislature constitute such a committee as soon as possible in the new session and that the Committee report back to the House no longer than six weeks after its inception.

## FOURTH DAY

MONDAY, APRIL 4TH, 1977

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker made the following statement respecting Petitions:—

On Thursday last, I informed the House that I would take Mr. Bain's Petition under consideration and inform the House as to whether or not it constitutes a proper Petition to the House under the Standing Orders, and that at the same time I would make a comprehensive statement with respect to Petitions.

As I stated on Thursday, we are proceeding at this session under the provisional changes to, and additions to, the Standing Orders as adopted by the House in 1970. These provisional changes and additions were adopted unanimously by the House on December 16, 1976. Paragraph 5 of that order specifies that the Government shall provide a response to the House within two weeks to all Petitions presented to the House. If this provision is to work, I am sure the Members will agree that the Petitions must be only those properly within the jurisdiction of the House and presented by petitioners who knew when they signed that they were signing a Petition to the Legislature. If frivolous Petitions, or Petitions which are intended for individual Ministers, or on matters which are not within the jurisdiction of the House to remedy, are continuously tabled, the whole procedure of presenting Petitions, which is a very ancient and important one, having originated in the 13th century, will be compromised to the point where it is useless.

The public Petition serves as the only mechanism by which an individual or the community can directly ask Parliament to change some aspect of the general law, rectify some personal or local grievance, or reconsider a general administrative decision. I refer you to May's Parliamentary Practice, Nineteenth Edition, at page 811, and W. F. Dawson's Procedure in the Canadian House of Commons, page 238. The history of the modern Petition actually dates from the 17th century. In 1669, the Commons passed two resolutions which constitute the legal and philosophic foundation of the modern Petition. These read as follows:

"That it is the inherent right of every commoner in England to prepare and present petitions to the House of Commons in case of grievance, and the House of Commons to receive the same."

"That it is an undoubted right and privilege of the Commons to judge and determine, touching the nature and matter of such petitions, how far they are fit and unfit to be received."

In all jurisdictions of which I am aware, Petitions may be sent to the Table, as provided in Standing Order 83. If, after examination, the Speaker rules that the Petition is in order, it is deemed to be received by the House and may be read by the Clerk if required, as provided in Standing Order 85,

clause (b) of which provides that no debate may take place at that time unless it complain of some urgent personal grievance requiring immediate remedy, in which case it will be taken into consideration immediately.

Now, as to the substance of the Petition, it must, as I mentioned previously relate to a subject matter over which Parliament has some control, hence the House will not receive a Petition relating to a matter which has been delegated to the control of another body. For example, in the House of Commons of Canada, a Petition complaining that certain recommendations of the House had not been implemented by the Canadian Radio Television Commission, was held by Mr. Speaker Lamoureux to be outside the House's purview. Moreover, a Petition may not specifically ask for the expenditure of money; this principle is incorporated in our Standing Order 84.

In dealing with the substance of Petitions, Mr. Speaker Jerome in the House of Commons of Canada recently made the following observations:

"This is a representative institution, and the elected representatives are the ones who should carry into this Chamber opinions or reflections on the performance of the government, not messages from outside brought in here in some other guise. A Petition which seeks to place before the House the opinions of people who are not responsible, elected members, ought to be viewed in accordance with the strict interpretation."

For the above reasons it is my intention to receive Petitions and give myself time to study them. I anticipate that on the sitting day following the presentation of a Petition by a Member, I will be able to rule on the propriety of the Petition. I therefore point out to the House that when sending a Petition to the Table, a Member should not make any comment on its contents. If and when the Petition is declared to be in order, Standing Order 85 will then apply.

I also feel obliged to caution Members that in the past documents purporting to be Petitions have been offered to the House. These documents have, in fact, been altered after they were signed by the Petitioner. I will insist that Petitions be properly addressed to the House by the Petitioner and that no alteration of the document takes place. My point simply is, that Petitioners must have known that they are petitioning parliament, not simply signing a document as an expression of views to an agency of government. The House has gone a long way in modernizing the procedure on Petitions and eliminating some of the ancient forms of speech which are still required in Petitions presented to other jurisdictions. As stated, the only requirement we have really retained is that the petitioners must be aware of what they are signing, and this must be evident on the document they sign.

Finally, it appears clear to me that the House wishes to provide an avenue for the citizens of this province to address grievances directly to parliament. The House has declared itself in this matter and it is incumbent on all of us to maintain the integrity of this procedure. I ask for the assistance and co-operation of all Members.

Referring specifically to Mr. Bain's Petition, tabled last Thursday, while it does not appear evident that the signers knew that they were petitioning parliament, I am giving it the benefit of the doubt on this occasion and will accept it, but I urge upon the Members that in future when a Petition is circulated it indicate that it is addressed to the Lieutenant Governor and the Legislative Assembly and is, in fact, a Petition to the Legislature for the redress of a grievance.

Under provisional rule 5 the Government has until Monday, April 18th to respond to this Petition.

The following Bills were introduced and read the first time:—

Bill 15, An Act to regulate Transactions involving the Purchase of Tax Refunds by Discount. *Mr. Davison* (Hamilton Centre).

The debate was resumed, and, after some time,

Mr. Lewis moved, seconded by Mr. Deans,

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

While it is recognized that the concerns expressed in the Speech from the Throne, delivered by Her Honour, are genuine attempts to redress grievances resulting from many years of government mismanagement;

And while it is recognized that those portions of Her Honour's address which dealt with questions of national unity are eminently supportable;

Nonetheless we must insist that this Conservative government has once again failed to establish priorities and policies which would resolve the following major concerns in the Province of Ontario:

1. The failure to ensure employment, both short and long-term, with particular emphasis on:
  - (a) Direct government involvement in major long-term job-creating projects, of wide diversity, public and private, across Ontario;
  - (b) Economic stimulation by the promise of substantial tax cuts;
  - (c) Major development and building of diversified housing for low and middle-income citizens;
  - (d) An intensive program of secondary and tertiary-manufacturing based on our resource sector.
2. The failure to call for an early end to the A.I.B. despite increasing public concern that controls are now hurting far more than they are working.
3. The failure to moderate increases in the cost-of-living by refusing to recognize that:
  - (a) The present property tax formula places an unfair burden on middle, low, and fixed-income families;
  - (b) Food prices, energy prices, land and housing costs are above the consumers reasonable capacity to pay.
4. The failure to protect, adequately, our natural resource heritage, be it water, minerals, forests or agricultural land, compounded by the continued absence of a land-use plan for Ontario.
5. The failure to call for a complete overhaul of the Workmen's Compensation Board to civilize it, to humanize it, and to make it respond sensitively to many of the people it was created to serve.

And for all the foregoing enumerated reasons, this government no longer enjoys the confidence of this House.

On motion by Mr. Smith (Hamilton West).

*Ordered*, That the debate be adjourned.

---

Before the Orders of the Day, Mr. Speaker addressed the House as follows:—

It has been suggested that before the first Private Members' period under the Provisional Rules, I should outline as clearly as possible what I understand to be the consensus of the House respecting the procedure to be followed.

My understanding is this. When the Routine Proceedings have been completed, the Orders of the Day are, of course, the two prescribed items of Public Business. The time from the commencement of such proceedings until 5.50 p.m. will be divided equally between the two Orders. When debate on the first Order has concluded, the Speaker will immediately call the second Order for debate. When debate on both Orders has been concluded, if no petition adverse to a vote has been filed in accordance with Provisional Order 37 (f), the Speaker will put a question on the first Order as follows.

“Shall there be a vote on this motion. Any Members opposed to a vote must now rise.”

If 20 Members rise a vote is of course blocked, but if any less than 20 Members stand a vote will be ordered and stacked. The same procedure will then be followed with respect to the second Order of the Day. If votes on both the Orders are blocked that of course ends the proceedings. If, however, a vote is ordered with respect to either one or both of the Orders, the Speaker will proceed to call for the voice-vote, the Ayes and Nays, in the usual way and give his opinion as to whether the Ayes or Nays have it. If that opinion is accepted the vote is so recorded. If, however, 5 Members stand in their places in the usual way to call for a recorded vote in either one or both cases, there will be a five-minute division bell after which the recorded vote or votes will be taken.

The time allotment for each Member speaking will remain as heretofore with this exception; the mover may, if he wishes, reserve any part of his 20 minutes for reply at the end of the debate. He must, however, advise the Speaker beforehand of his intention to do so and as to how many minutes he is so reserving.

---

Answers were Tabled to questions nos. 1, 3, 4, 5, 16, 17 and 19. (*See Hansard*).

Interim answers to questions nos. 2, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 18 and 20 were Tabled. (*See Hansard*).

Mr. Maeck moved Second Reading of Bill 3, An Act respecting the Withholding or Withdrawal of Treatment where Death is Inevitable and a debate arising, at 4.55 p.m. further proceedings on the motion were then reserved until 5.50 p.m. and:—

Mr. Lawlor then moved Second Reading of Bill 4, An Act to provide for Freedom of Information and a debate arising, after some time,

Mr. Speaker put the Question:—

Shall there be a vote on Bill 3, An Act respecting the Withholding or Withdrawal of Treatment where Death is Inevitable which Question was decided in the affirmative,

Mr. Speaker then put the Question:—

Shall there be a vote on Bill 4, An Act to provide for Freedom of Information which question was decided in the negative, more than twenty Members indicating their objection.

  - (c) Major development and building of diversified housing for low and middle-income citizens;
  - (d) An intensive program of secondary and tertiary-manufacturing based on our resource sector.
2. The failure to call for an early end to the A.I.B. despite increasing public concern that controls are now hurting far more than they are working.
3. The failure to moderate increases in the cost-of-living by refusing to recognize that:
  - (a) The present property tax formula places an unfair burden on middle, low, and fixed-income families;
  - (b) Food prices, energy prices, land and housing costs are above the consumers reasonable capacity to pay.

4. The failure to protect, adequately, our natural resource heritage, be it water, minerals, forests or agricultural land, compounded by the continued absence of a land-use plan for Ontario.
5. The failure to call for a complete overhaul of the Workmen's Compensation Board to civilize it, to humanize it, and to make it respond sensitively to many of the people it was created to serve.

And for all the foregoing enumerated reasons, this government no longer enjoys the confidence of this House.

## THIRTEENTH DAY

TUESDAY, APRIL 19TH, 1977

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Friday last during the Question Period, a rather unusual procedure developed, brought about, I think it is fair to say, by the large number of ministers absent from the House during the Question Period.

There are two points that should be mentioned as far as the procedural aspect is concerned; first, as was pointed out, the ordinary rule as set out in Standing Order 31 (a) is that motions to adjourn the House may be moved prior to the Orders of the Day only by leave of the House. I suggest that leave of the House does not necessarily predicate the unanimous consent but is something which the Speaker must judge according to the circumstances at the time. In view of what went before on Friday, and as no objection to the motion was made, I presumed leave of the House, and I feel that I was correct in this presumption. I point out that there is precedent for this action.

The second point on which I feel I should comment is that a member must under ordinary circumstances, gain the floor in the usual way before he has the right to move such motion. He may not interrupt the member who has the floor by alleging a point of order for the purpose of moving the adjournment. However, again the circumstances were unusual. It was in the Question Period; that is, no one was holding the floor to speak on a debate and as the Leader of the Opposition, who had the floor to ask a question, took no objection to Mr. Smith's interruption, again I gauged the mood of the House to be such that it was desirable to allow the bells to ring on the motion in order to bring the House back to some semblance of order.

With respect to the other point raised by the Government House Leader, while it is true that he does not have any specific duties prescribed by the rules until the Orders of the Day have been entered upon, it is surely the duty of the Executive Council to see that there are sufficient members of the Council in the House during the Question Period to make it meaningful. Certainly the Speaker can not be expected to take on this obligation.

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

Yesterday three Petitions were tabled by Mr. Moffatt, Mr. Breaugh and Mr. Godfrey. I stated that I would examine them and report to the House today as to whether or not these Petitions are in order.

I direct the attention of the House to Standing Order 84, which reads as follows:

“No petition can be received which prays for any expenditure, grant or charge on the public revenue, whether payable out of the Consolidated Revenue Fund, or out of moneys to be provided by the House”.

I then must direct the attention of the House to the last sentence of paragraph 1 of the three Petitions, which reads as follows:

“As an immediate solution, we require that increased funding from the Province be made available in the amount requested by the Region in December of 1975 of the Treasurer of Ontario”.

The House will see that these Petitions are in direct contravention of Standing Order 84 and therefore cannot be received. I am directing the Petitions be returned to the Members.

Perhaps I might suggest that the petitioners might make their representation to the Treasurer in some other way.
